TREACEY EXPLAINS

Montana Doctor Says He Wanted to Test Judge Hunt's Virtue.

IT WAS JUST A JOSH
When He Approached Attorney General Nolan About the Wellcome Case.

Washington, Feb. 19.—Senator Clark of Montana gave place at the beginning of today's session of the senate committee on elections as a witness to Dr. W. L. Treacey. The change was made in order to permit the justices of the supreme court of Montana to be present while Dr. Treacey was testifying as to his testimony was expected to deal largely with the relations between himself and Justice Hunt and Attorney General Nolan.

Before Dr. Treacey proceeded, Chairman Clark sent by Senator Clark to the Republican caucus of the Montana legislature.

"Helen, Mont., Jan. 16, 1899.—Hon. S. S. Hobson, Dear Sir: In reply to your letter of the 14th inst. requesting me to define my position on the tariff question, I beg to state that I am in favor of a high protective tariff on wool, hides and on every other product of this state, in order that producers of raw material shall get an equitable advantage in the distribution of tariff duties. It is manifest that the present schedule is manifestly unfair to the producers of the government, and there will necessarily have to be an increase and a readjustment.

"The manufacturing interests are entitled to enough to protect them against foreign labor, and they should be satisfied to allow the producers of raw material to have an equal advantage in the distribution of tariff duties. It is manifest that the present schedule is manifestly unfair to the producers of the government, and there will necessarily have to be an increase and a readjustment.

"W. A. CLARK." Dr. Treacey was questioned by Senator Chandler. He testified that after arriving in Washington Saturday last, he had met Mr. Falkner, counsel for Senator Clark.

The first question asked referring to the tariff was asked by Senator Chandler. He testified that after arriving in Washington Saturday last, he had met Mr. Falkner, counsel for Senator Clark.

DOUBLE-BARRELED AFFAIR.
The Kentucky Senate Convenes With Two Presiding Officers.

Frankfort, Ky., Feb. 19.—The Democratic senate today convened with two presiding officers, as the result of a double-barreled affair. The senate, which was composed of Democrats and Republicans, held its session today.

When the senate convened, both Charles and Marshall presided. The Republicans, recognizing Marshall, adjourned after the session, and the Democrats, recognizing Charles, adjourned after the session.

IS NEY'S SON

The Story of an Old Doctor Living at Saltville, Ind.

Calls Himself Neyman, the Third Son of the French Marshal.

At Saltville, Ind., about twenty-four miles back of New Albany, lives a man of 82, known to the public as Dr. M. C. Neyman. To the few who have heard his name, he is Eugene Ney, third son of Marshal Ney, "the bravest of the brave."

Quite naturally his story is connected with the legend that Marshal Ney was not really shot in the Luxembourg gardens, but was spirited away to die a country school teacher in North Carolina.

The story did not become known through him, and when questioned about it he denied at first that his name had ever been anything else than Neyman. It is only in recent years that he has admitted that his name was Ney.

At his death papers will be forthcoming, and it is expected that they will show that he was the third son of the French marshal.

not failed to observe. A second reason is to be found in the fact that the city's New York saloons no longer depend on the patronage of persons in their neighborhood, but cater chiefly to transients. So long as the business of a saloon is supplied by those attracted to it by the methods or the sociability of its keepers, the saloon owner could afford to pay a large sum in excess of the market value of wages for a barkeeper who browbeats his customers into buying his trade, but under the present system, which regulates the saloon business in New York, a majority of the customers have no knowledge of the identity of

COLENSO IS TAKEN

The British Forces Occupy the Town After a Slight Engagement.

Gen. Buller Reports that the Enemy Seem In Full Retreat.

London, Feb. 20, 5:22 p. m.—News has been received here that Gen. Buller has occupied Colenso after a slight engagement.

The following dispatch has been received at the war office from Gen. Buller:

"Boers Farm, Feb. 20, 4:10 p. m.—The Fusilier brigade yesterday took Hlangwani hill, the right of the enemy's position and commanding Colenso, the rest of the force advancing toward the Tugela. This morning the enemy had withdrawn all the troops north of the Tugela and had practically evacuated Colenso.

"Today Gen. Buller occupied Colenso after a very slight resistance. A weak rear guard, and we hold the line of the Tugela on the south side, from Colenso to Bag's nest. The enemy seem to be in full retreat, and apparently are only holding the position they occupy across the Colenso-Ladysmith railway, where it is close to the angle of the Tugela, with a weak rear guard. Our casualties today, however, I hope have been few."

London, Feb. 20.—Whatever good news may have been received from the front is being carefully guarded. In spite of the queen's announcement to the Fourth Division of the Lincolnshire militia this morning prior to her departure from Osborne house to Windsor that good news had been received from the seat of war, the war office solemnly averred that they had announced no news up to 1:30 this afternoon.

Unofficially it is rumored that Gen. Buller has brought Gen. Buller to a standstill and has engaged him, and it is added the war office now is only awaiting the receipt of a dispatch, saying that the Boers, however, though plausible, may be premature.

In any case, the confident hope that Gen. Buller has been cut off from Bloemfontein continues to prevail in London, especially in view of the dispatches saying that the Free States, when they saw the extent of the British force, were in favor of surrendering.

The first train to Kimberley left Cape Town last night. The neighborhood of the famous siege seems thoroughly cleared of Boers. Gen. Buller, apparently, is contenting himself with sheltering the Boers from his newly-gained position at Monté Christo, which, according to good opinion, is likely to form his base for an attempt to relieve Ladysmith.

The Westminster Gazette military correspondent says he believes the Boers have started northward in a body, and will raise the siege of Ladysmith and reinforce Gen. Buller. But this must be regarded as rather a hasty conclusion, since until Gen. Buller has developed the Boers' second line of defense, which, on every attempt to reach Ladysmith, has proved impregnable.

A dispatch from Pietermaritzburg, dated Monday, Feb. 19, says all is quiet in Zululand and the Boers' main bodies are reported to be retiring upon Dundee and Heilbrunn, leaving small forces and two pieces of artillery at each magistracy.

According to a special dispatch from Tarkstad, a refugee who has arrived there says the Boers are 600 strong at Stormberg, but that at Burchersdorp they have only a small town guard.

ENTRY INTO KIMBERLEY.

Boers Abandoned Opposition Before French Reached the Town.

Modder River, Monday, Feb. 19.—Although the rapid march of Gen. Buller's division was marked by a number of conflicts, the actual entry into Kimberley was unopposed. When the British were still eight miles away the signaling corps intercepted a heliograph message from the beleaguered garrison to Modder river, saying:

"The Boers are shelling the town." The advancing column replied:

"This is Gen. Buller coming to the relief of Kimberley."

The garrison was incredulous and thought the message was a Boer ruse, and flashed the query:

"What regiment are you?" The reply satisfied the defenders of Kimberley that the anxiously awaited success was at hand.

A few hours later Gen. Buller, at the head of a column, met a Natalumphant head of the place, the people surrounding the troops and intermingling with them, cheering wildly, grasping the soldiers' hands, waving flags, hats and handkerchiefs and exhibiting in a hundred ways the intensity of their joy.

The inhabitants had been on short rations for some time, eating horse flesh and living in burrows under heaps of mine refuse. Diminishing rations were served out daily at 11 o'clock in the mar-

"Lord Methuen's force has arrived at Kimberley, having got through from Magerfontein without fighting."

Queen Requests That They Organize For Home Defence.

London, Feb. 20.—The queen, through her private secretary, Sir Arthur John Bigge, has sent the following letter to the commander-in-chief of the forces, Field Marshal Lord Wolseley: As so large a proportion of the army is now in South Africa, the queen fully realizes that necessary measures must be adopted for the defence of the home islands. It is advised that it would be possible to devise for a year an ancient force of her old soldiers who have already served as officers, and confident in their devotion to the country and loyalty to their queen, to be placed in place of those who, for a time, are away from the home islands. Her Majesty has signified her pleasure that these soldiers should be designated as the royal reserve battalions of her army. "ARTHUR BIGGE."

REPORT FROM PRETORIA.

Battle on Tugela Expected—Boer Story of Kimberley.

London, Feb. 20.—A dispatch to the Daily Mail from Lourenço Marques, dated Monday, says:

According to advices from Pretoria the Boers are expecting a big battle on the Tugela. They claim that seventy of the Wilshire were killed at Colenso, and that thirty wagons with forage and provisions were captured, but no ammunition. They thus describe the fight at Kimberley:

"The British came through Hlangwani and attacked in two columns. The first column, consisting of the 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, FIGHTING AT MONTE CRISTO.

British Bombardment of Boer Positions Was Very Heavy.

Durban, Feb. 19.—There was continuous fighting yesterday from the British positions on Gun hill and Husar hill. The troops advanced from the former towards Monté Christo. The Boers were heavily engaged with three 4.7-inch guns and the 100-pounder, one gun, supported by infantry, against the position on Hlangwani hill, which adjoins Monté Christo and is regarded as the key to Groblers' Nek. The Boers were particularly active from Husar hill on the strong Boer entrenchments at the extreme end of the ridge. The firing still continued at 10 o'clock yesterday evening.

During the day the Boers laid out a trench on an arm of the ridge leading to the direction of Colenso. It is reported that we have captured over 100 prisoners.

The naval gun knocked out the Long gun on Hlangwani hill at the first shot, for which Gen. Buller especially complimented the gunners.

The difference in time between South Africa and this country, consume two days in transmission—that is to say, the cable sent by Mr. Macrum on Nov. 8 would normally have been received by the state department on Nov. 10. But on Nov. 9, before the cablegram was received by the state department, it was sent from South Africa, and before it was sent from South Africa, the British papers in Natal, hundreds of miles away, announced, in impressive type, that Mr. Macrum, the American consul at Pretoria, desired to be permitted to go home.

LEAVES VALE.

Studies of Alexander Cameron, Duluth's Blind Student, Interrupted by Injuries.

Chicago, Feb. 20.—A special to the Times Herald from New Haven, Conn., says:

An ambition for a new world's honor was shattered today when Alexander Cameron, the blind philosopher of Yale, was obliged to leave college. Last week he fell into an open cellar and received a fracture of his skull and face which may have won him the degree of doctor of philosophy in June, the first time a blind man had ever received such an honor. Cameron was broken-hearted when he heard that he must give up his cherished hope, but the professors of the Yale divinity school, in which he has been studying, consoling him with a promise to allow him to pursue his studies at his home in Duluth, Minn., and submit his thesis in June for his doctor's degree.

LOOKS MYSTERIOUS.

Steamer Leaving Philadelphia With Grain For Africa Sinks.

Philadelphia, Feb. 20.—The British steamer Reform, which was ready to sail from this port with a cargo of wheat for Limerick, Ireland, sunk in the Delaware river, off Kelleys Point, N. J., last night. Considerable mystery surrounds the sinking of the vessel, as it is reported that the grain was to be forwarded eventually to South Africa. The steamer had near ten feet of water in her fore hold when the first mate discovered that the vessel was settling. Despite the efforts of the crew to keep her afloat by use of the pumps, the vessel sank in a short time.

BOUNDED BY SETTLEMENT.

Washington, Feb. 20.—The comptroller of the currency has recently rendered several decisions in which he holds that under the act of July 3, 1890, claimants against the government who accept payment in payment of claims should not be precluded from obtaining a revision by the comptroller of such settlement as to any item which has been rejected. Persons, he says, receiving treasury warrants in payment of claims should not transfer or cash them if they are satisfied with the amount paid. Otherwise, they are estopped from asking for a revision by the comptroller.

COMPERS ARRIVES.

New York, Feb. 20.—Among the passengers today who arrived from Mexico from Havana was Samuel Comper, president of the American Federation of Labor.

Makes an Eloquent Plea Against the Measure—Hopkins Supports It.

Washington, Feb. 20.—Before the debate upon the Porto Rican tariff bill was resumed today, the senate bill to authorize the construction of a bridge across the Red river of the north, at Drayton, N. D., was passed.

Mr. Hepburn attempted to secure an agreement to take up the Nicaragua canal bill. He asked unanimous consent that it be taken up two weeks from today.

Mr. Richardson asked if there was anything in the bill which recognized the existence of the Clayton-Bulwer treaty.

"There is not," replied Mr. Hepburn. "The bill provides for absolute ownership."

Mr. Cannon, chairman of the appropriations committee, said he was not prepared to agree at this time to the consideration of the bill.

There is no objection on this side," observed Mr. Richardson.

Mr. Hepburn offered to make the date a week from today, but Mr. Cannon dissented.

The house then went into committee of the whole and Mr. Newlands, a member of the ways and means committee, took the floor in opposition to the Porto Rican bill.

Mr. Newlands said:

It is true that I recommended Jimmy's Old Whiskey." You add that you "would not expect it of an avowed temperance man and a Sunday school superintendent." Dear madam, I AM a temperance man, and know no words strong enough to express my disgust and detestation of vile whiskey that people hell. I would that it were a recognized crime to manufacture and sell it. Damn WILL drink, and I would that

The Duffy Malt Whiskey is a MEDICINE-gold stamped as such. It is not a vile compound of trash, poison and slops. I use it in laboratory work, because by it I get the

land had not been washed away, save off the top of a cottonwood stump that was on the island and showed that it contained fifty-six circles, or rings, beginning at the heart of the tree and extending to the outer edge. It was, therefore, fifty-six years old, hence the tree was a sapling fifty-five years ago, and was consequently growing there thirty-six years before the island became a part of Tennessee.

In 1865, the first ring was formed, every year he testified, while hunting about twenty miles from that place in 1865 he had tapped a cottonwood tree for water, and had put a plug in the hole and covered it with wax. He said that the tree in its growth would have covered up the plug, and that the new

The tree was found and sawed up. The plug was discovered and was distant from the outside of the tree exactly thirty-four rings.

Although such testimony would not be doubted by a woodsman, it was not received as evidence by the court.

Le Matin, founded in Paris by two Americans, has now grown to be one of the most powerful newspapers in the French metropolis. Six months ago raised enough money in one week to build two submarine boats—Le Francis and l'Allier—which it presented to the government. Now the paper donates \$200,000 to equip a surveying mission for the Trans-Sahara railroad, declining to accept any help in equipping.

5 per cent. But the concern undoubtedly
makes a profit on its regular business.
With the half a million which it gets from
the government for carrying the mails it
is enjoying a degree of prosperity which
most business men would be glad to share.
To this income of the International Navi-
gation company the people are now asked
to add an annual item of "only" \$2,500,000
as an absolutely free and unearned gift.
In other words, the nation is asked to go
down into its pockets and contribute a
clear additional profit of over 2 1/2 per
cent to the stockholders of the Interna-
tional Navigation company. This, added
to the 4 1/2 per cent already given for car-
rying the mails, will produce an assured
income of more than 20 per cent on an as-
sumed capital of \$10,000,000 over and above
whatever its regular business may bring.
As the Tribune says, it is an alluring
proposition for the interested company—
better than a gold mine. It is not strange
that the lobbyists are firmly convinced
it is a good thing.

GOOD FARMING LANDS.

The Herald recently published a letter
from Gen. C. C. Andrews, state treas-
urer, who is touring the country in the
interest of the Cooper scheme to
lock up a large section of Northern
Minnesota as a national park. The
scheme is to acquire the land and develop-
ment and convert it into a game pre-
serve for the benefit of Chicago and
Eastern millionaire sportsmen. Gen.
Andrews accompanied his communi-
cation with a letter from one B. C.
Baldwin, chief in the surveyor gen-
eral's office, asserting that the land in
the proposed "national park" is no
good for farms, one-third swamp and
the remainder second and third rate
soil.

The Cass Lake Times, published in the
region that Gen. Andrews, Col. Cooper
and their associates desire to lock up
from settlement, says that Mr. Bald-
win's statements are "a libel upon the
grand inter-lake region of our state."
It adds: "We do not believe that con-
gress will deprive the state of so val-
uable a portion of its territory, repre-
sented as so gloriously false and mislead-
ing as presented by his off-hand letter,
nor can we understand why a man oc-
cupying a state position with ample
evidences as the letter writer or
the chief of the state, should be so
eager to deprive the state of such an
important tract of land, which is cap-
able of being made into profitable
farms and comfortable homes of hun-
dreds of young men now waiting the
opening of this region to take home-
steads and contribute toward the sup-
port of state government. There are
thousands of acres in these reserva-
tions of most excellent arable lands,
and other thousands of most excellent
natural meadow and not an acre of
swamp lands which may not, by in-
telligent culture and drainage, become
the most profitable grass lands in the
state. The Times has stated these
facts and is respectfully and properly
presenting the most positive proof of the
assertions here made."

These statements made by Judge
Lew, editor of the Times, will be ac-
cepted by all who know that gentle-
man as absolutely true. They enforce
the position that the Herald has con-
sistently maintained of uncompromising
opposition to the Cooper scheme in
shape or form. There is now a state
park covering the source of the Mis-
sissippi and it contains all the attrac-
tions and advantages that are set forth
as the "reasons" why the so-called
"national park" should be established. Is
not a park enough? Why then lock
up from settlement thousands of acres
of excellent farming lands?

tration organs are so ready to

MORTGAGE PERMITTED

Council Grants Permission to Zenith Telephone Company to Raise Loan.

CHANGING THE WIRES

Transfer of Fire Alarm System Is Delayed For Another Week.

Business was brisk last evening at the council meeting. An ordinance was passed permitting the Zenith City Telephone company to mortgage its plant to the extent of \$50,000, but before it went through it gave occasion for considerable discussion. It was feared by some of the aldermen that the proposed mortgage was merely a scheme of the old Duluth Telephone people to get possession of the franchise. This was argued at length, and finally decided that even if it did the council could not prevent it. The Bell people could also get possession by attaching a majority of the stock of the new company, and the city although interested to the extent of 1 per cent of the gross earnings of the new company, would be powerless to prevent a legitimate business transaction. The ordinance passed with only Alderman King voting against it.

An ordinance was introduced compelling all bill posting companies operating in the city to pay \$100 license every year. It was laid over for one week. There is an ordinance in this nature now on the city statutes, passed in July, 1891, but it has been allowed to become a dead letter, and the bill posting companies have been doing business without paying the license, providing all city bill posting, such as putting up election notices, was done free. It is understood that the new ordinance has been framed at the request of the bill posting companies that would rather pay the \$100 license money than handle the city bill posting.

Alderman Krumsing introduced a resolution instructing the fire and police departments to make a complete survey of the city and to report to the city council within a week. Alderman Crowell objected to the work beginning within a week, saying that it would cost \$2000 and \$3000, and saying it should be thought over carefully. Alderman Krumsing maintained that it would only cost \$2500 and said that the change had to be made at once if the city wanted to get rid of the old telephone company. The resolution was laid over for a week pending information from the fire and police departments.

Alderman Cullen introduced a resolution appropriating \$100 to help defray the expenses of the recount on the charter. Under the rules it went over for a week. More than 100 residents of the East End, living east of the city limits, and above Second street, petitioned the council for a better street car service in that part of the city. They stated that the present East Fourth street service was unsatisfactory and inadequate, and that through the part of the city had made several unsuccessful efforts to have the company improve the service. They requested a 20-minute service, and also asked that extra cars be run during the night and in the evening during the rush hours, and that there should be a car going east as late as 11 o'clock in the morning, instead of 11:40 as at present. The petition was referred to the committee on streets, alleys and sidewalks, and the city attorney to ascertain if the city had any right under the franchise to control the street car company to give a better service.

The congregation of St. John the Baptist church petitioned the council to make temporary improvements on West Superior street between Eleventh and Twelfth avenues so that carriages could reach the church. The petition requested that the street be widened, with sidewalks, and that public works, with instructions to make an estimate of the cost of the temporary improvement.

By resolution, permission was granted of the Duluth Brewing and Malting company to have a spur track along Railroad street from the Duluth, Missisquoi & Northern tracks, subject, however, to removal on short notice by the council.

Another Big Ocean Liner.

It is rumored that another big ocean liner is to be built which will rival even the famous Olympic in size. As usual, American enterprise is at the head of the project. American shipbuilders are determined to have the greatest, whether it be steamships, air, or platforms on land. The new liner is to be built at the Bethlehem Steel works in Sparrows Point, Pa. It is to be 250 feet long, 35 feet wide, and will carry 10,000 tons of cargo. It is to be the fastest liner yet built, and will be able to make the voyage from New York to London in 10 days.

George R. Wendling.

Tomorrow evening George R. Wendling will be heard in the Star Lecture course at the First Methodist church, speaking on "Mirabeau and the French Revolution." George R. Wendling is a native of Illinois. He was a brilliant lawyer, and was one of the distinguished members of the convention which framed the present constitution of Illinois. He received an invitation from one of the leading bureaus of the state to lecture on the French Revolution. His lectures achieved instant and universal popularity. He has since given a lecture each year to the work; has withdrawn from the practice of law; devotes most of his time to literary labors; lives in Washington, D. C.

"TOLL GATE INN." The colonial love romance, which is to be at the Lyceum, is said to have been meeting with big success. It is the first presentation in this city which is not greeted by a crowded house as it is the style of play that seems to have the strongest hold on the people. It is said to possess a very strong story, which is entwined with good wholesome comedy and as a scenic production is one of the finest that Duluth has yet seen.

CORINNE COMING. "The Jolly Little Host." Smith and Lorraine's merry creation, with the well known and fascinating names, will be the attraction at the Lyceum Friday evening. It is three years since the last time the Lyceum presented this charming little woman in this city, except in vaudeville, and pleasant memories still remain of the work then presented by her. The company by which she will be supported will be composed of artists whose names are very familiar to theater-goers, notable among whom are R. E. Graham, Louis Delany, John J. Rafferty, Arthur Villars, Ruth White, Genevieve Reynolds and Emily Francis. Manager Howe has done his utmost to surround Corinne with every requisite for a proper presentation of the merry and laughable play, "The Jolly Little Host." The incidental music with which the play abounds is said to be admirable and is furnished by W. T. Francis.

Towing Company Will Furnish Incentives For Good Work.

Capt. R. B. Inman, manager of the Union Towing and Wrecking company, returned yesterday afternoon from a trip down the lakes, during which he attended the annual meeting of the Great Lakes Towing company at Cleveland. He also went to the Bermudas to visit Mrs. Inman, who is spending the winter there. Capt. Inman says that there will be a uniform card rate this year for towing, and that the rate will be the same as last year. One of the most interesting things about the meeting was the fact that the towing companies were to offer prizes at the end of the season for the best work. This will be done all along the line. All the towing companies will be competing for prizes, the amount of which will depend upon their work.

He also said that all of the shipwrecks are to be worked to the limit this season, and it would be impossible to place the towing companies in a better position than they are now. He does not believe the Maxthams, who are getting the line up, will get farther than Buffalo.

LIEUT. McLAIN RESIGNS.

Says He Has Had Enough of Abuse on Police Force.

On March 1 Police Lieut. McLain will become a farmer. He announced his decision last evening, and says that there is too much "knocking" in connection with his position on the police force. He proposes to be a man with a star and stand all the abuse the department has received in the past two years. Lieut. McLain was appointed to the force in 1890, through the efforts of Mr. Hugo. He has a claim for four months' pay, and on retiring from the department will look after it.

Arrives From Klondike.

Sylvester Wideman, representing the Alaska Pioneer Mining company, is in the city to see some of the Duluth people interested in the Klondike. He is accompanied by Mr. John Watson, who is the head of the project. They are determined to have the greatest, whether it be steamships, air, or platforms on land. The new liner is to be built at the Bethlehem Steel works in Sparrows Point, Pa. It is to be 250 feet long, 35 feet wide, and will carry 10,000 tons of cargo. Why is Electric Light Best?

Because it is Healthy, Clean, Pure and Brilliant.
HEALTHY! It has no odor. Professor Thomson states one cubic
foot of gas consumes as much oxygen as four adults.
CLEAN! It causes no discolorations of furnishings and decorations
in homes.
SAFE! As electric bell work, no danger of suffocation.
CHEAP! By using a little care in turning off lights when not
in use it is cheaper than any other illuminant.

The New Imported
Cotton Fabrics and Novelties—

The season for woven cottons
used to begin with the first warm
weather, when the heat of mid-
summer was brought to mind by a
few lazy spring days.

Then people grew wiser and began
to get ready for the first warm days;
and still, they began leaving the
city as early as March.

That meant dressmaking and all
its torments away from home or in
the home; inconvenience, and either
a dressmaker at their elbow all the
while, to spoil the fun; or constant
trips to the store when they wanted
to be sunning themselves and enjoy
the summer's flowers.

It all ended in their demanding the
prettiest and newest things for sum-
mer in midwinter, so that the past of
getting ready would be over with
and out of the way before they left
home.

And that's how it happens that
the newest and prettiest imported
cottons and novelties are ready so
early.

The year they are truly beautiful.
Insertions of lace and embroidery
have been "let in" to embroidered
swisses and gingham to help form
the stripes.

There are Persian striped gin-
ghams, wavy and in the latest
ginghams, quieter and more beau-
tiful, even, than last year, and the
new spring novelties from Paris and
other parts of Europe.

Embroideries, Laces and All-Over, and
About Them

The new dainty edgings, insertions,
and all-overs from the wonderful
Swiss town St. Gall are here now in
as great variety as we shall have
them at any time during the year.

New embroideries and new pat-
terns will come in week by week
(and we keep getting in embroideries
all through the year—late summer,
fall and winter, as well as early
spring and summer), but this is the
big full starting point, and you won't
see better, here or elsewhere in this
neighborhood.

Strange mixture of art and me-
chanical ingenuity. Embroidery was
known even before painting. But it
was less than fifty years ago that
the wonderful work was brought in-
to reach of everybody by the in-
vention of a machine.

A simple machine. The artist's de-
sign is traced by the operator and
the machinery reproduces it one-
sixth as large—the nervous touch of
man is not lost, and yet patterns as
fine and delicate almost as hand-
made are embroidered on the soft
cloth.

The finest embroideries are made on
hand looms. The operator works the
machine with his foot and traces the
design by hand. Slow and hard work
—but how wonderfully beautiful the
result!

The more elaborate all-overs are
made on power looms. How fast
stitches fly there! A hundred al-
most where there was one on the
hand loom!

From the quarter-inch baby ed-
ging to the wide flouncing for wo-
man's and children's underwear, the
embroideries shade from one pattern
to another in almost perplexing
variety.

There are several hundred patterns
more of them entirely our own
than ever before. We went through
piles and piles of new designs last
September until our eyes were wearied
of loveliness, and picked out the
best. Most of them you see now
where there was one on the hand
loom!

Impoverished Blood

is the secret of half the diseases known to humanity—rheumatism, dropsy, scrofula, stomach and liver troubles may in a majority of cases be traced to the circulatory system. They can be avoided and they can be cured by the use of a remedy that supplies the necessary elements to enrich the blood.

Dr. Williams'

Pink Pills for Pale People

increase the red corpuscles in the blood and thereby give it new life and richness. They also tone up the nerves and are a specific for many serious disorders.

From the Journal, Carterville, Mo.

Mrs. Joseph M. Evans, of Carterville, Mo., says: "Two years ago I had dropsy of the left foot so severely that my physicians said I could not recover—that it would be impossible to give me any treatment that would afford permanent relief. I had been sick about a year, and most of the time was bedridden. My hands and feet were so swollen that I could not wear my shoes. The treatment of the physicians did me no permanent good. I steadily grew worse.

"My brother insisted that I try Dr. Williams' Pink Pills for Pale People. I did so with some skepticism and without much hope, but they would not let me, but the effect was almost marvelous. The first box effected a change for the better in my condition, and I continued to improve steadily.

"I took about six months steady treatment, and kept them in the house and took them at intervals for a year or more afterward. The result is that I do not now feel a trace of my former ailment."

Subscribed and sworn to before me, a Notary Public, this 12th day of October, 1898.

Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent, postpaid, on receipt of price, for a box or six boxes for \$2.50 (they are never sold in bulk or by the box) by addressing Dr. Williams Medicine Company, Schenectady, N. Y.

KNIGHTS OF PYTHIAS CELEBRATION

Thirty-Sixth Anniversary Is Commemorated By North Star Lodge.

The thirty-sixth anniversary of the organization of the Knights of Pythias was celebrated last evening in 2301 hall by North Star Lodge, neighboring lodges having been invited to celebrate with them. A pleasing program was given, and the rank of knight was conferred on a class. After the work the members found their wives and women friends waiting in the banquet hall, where an excellent supper had been spread. After this matter had been passed, of Toastmaster J. B. Gibson called the guests to order and introduced the knights of the lodge. An informal dance followed, and the West Duluth K. P. band played. Some members of the West Duluth lodge were present, and Superior and West Superior were represented by large delegations.

AMUSEMENTS.

"TOLL GATE INN."
A colonial romance, rather crudely told, was presented at the Lyceum last evening in the "Toll Gate Inn." It is not a play of very artistic requirements, but the acting was fairly smooth and spirited and agreeably free from melodrama. The scenic environment was surprisingly good in tone and detail. Although a war time play love making figured by far the more prominent part of the action. Three women in the company and in four very short acts there was a complete change of scene. Miss Delia Stacey, Miss Helen, Miss Delia Stacey and Miss Helen, to whom were entrusted the parts of the play, but the part of Patsy, the half-breed, taken by John D. Weeks, stood out most prominently.

COQUINNE COMES.
Friday evening at the Lyceum Manager James Hove will present the brilliant comedienne, Corinne, in "Edgar Smith and Louise Delancey's merry creation, 'The Jolly Little Host,' with the aid of a supporting company which in point of absolute merit is far superior to any that has heretofore appeared with this clever star. The individual fame of R. E. Graham, Louis Delancey, John J. Raffael, Ruth White and Emily Francis, all of whom are assembled in this remarkable organization, should be sufficient in itself to draw large audiences everywhere. In the past years Miss Corinne has made a de-

plac, clever in its development, and full of the funniest situations conceivable. The dialogue is full of wit and above all it is clean and wholesome. A splendid company will be seen here Saturday night, including Messrs. William McVey, Joseph Swickard, George Morehead, Miss Lillian Dix, Miss Helen, Miss Delia Stacey, Miss Louise Temple and the Jolly comedienne, Miss Delia Stacey.

For Washington's Birthday.
The pupils of the Lakeside school will commemorate Washington's birthday by a play, "The Flag," at 1:30 this afternoon. The play is a patriotic one, and will be given in the school building.

Lived Here at One Time.
The Ashland Press reports the death of Merritt Hodge, of that city. He lived in Duluth at one time and was well known to the traveling and hotel men here. The Press says: "Merritt Hodge, one of the proprietors of the Ashland hotel, died this afternoon after a short illness of only about three days. For a long time Mr. Hodge was threatened with heart trouble, requiring the utmost care on his part. He was taken seriously ill last Friday and death ensued at 1:30 this afternoon, of apoplexy. Mr. Hodge was but 26 years of age. He was born in Ontario, Wis., coming to Ashland from Duluth about five years ago. He leaves a wife and three small children, and one brother, living in the state of Washington. He was a member of the Improved Order of Red Men."

SHEEHY FLOORED

Damaging Testimony Brought Against Him In His Case Against Miss Cook.

THREATS AND ABUSE

Tried to Frighten Her Into Dropping Case Against Street Railway Co.

Sensational preliminary evidence was brought out in the municipal court yesterday afternoon in the action brought by Joe Sheehy, ex-pugilist, against Miss Lizzie Cook, charging her with stealing his watch. The jury acquitted Miss Cook almost as soon as the foreman could write the requisite four words, and showed a strong desire to see Sheehy prosecuted, as did almost every person else that had followed the trial.

Sheehy made the most revolting charges against the young woman, charging that she was unable to prove, and the whole trial bore strong evidence of malicious prosecution. Even the prosecuting attorney, who was called to the stand by the street railway company, was so thoroughly convinced of the charge against her, and asked to have the case dropped.

It developed that Miss Cook recently obtained a verdict of \$800 against the Duluth Street Railway company, in the superior court of West Superior. Sheehy, who has no connection with the railway company, interested himself, and Miss Cook said that if she did not drop the case against the street railway company, she would lose her \$800.

SEIZURE OF TIES

State Inspector R. S. McClellan Grabs \$10,000 Worth in Cook County.

FROM STATE LANDS

Says They Were Cut From Public Tamarack—State Is Watchful.

Attention has been called to the prevalence of the tie-cutting industry in Northern Minnesota this winter. There is more of it than there has ever been before by a good deal, and the woods are full of men getting out what look like sticks of tamarack cordwood which they are trimmed and shaped into the semblance of railroad ties.

It seems that some of the men who are getting out ties have let their enthusiasm run away with them to the extent of cutting ties from lands that do not belong to them, and one case at least has been reported where the guilty parties have got into trouble.

These people who cut ties from land that does not belong to them do this to get out of private lands, but use the tamarack on state lands from which to haul their ties. Perhaps they do this in ignorance of the fact that the state has men out looking for such depredations, or that they may have this idea that they are entitled to help themselves from public lands, at least to the extent of what their proportion of the property of all the people amounts to.

It seems, however, that they have over-estimated their share of this public wealth, for yesterday R. S. McClellan, state inspector, reported to State Auditor Dunn that he had seized railroad ties worth about \$10,000 found in Cook county, near the southeast corner of the county.

These ties were cut on state lands by small contractors for Chicago parties, and they were all piled up ready to be moved as soon as navigation opened. Once on board a vessel and the state would have had hard work to prove that they were its property, but where they are now there is little question of it. They will be held until the Chicago parties for whom they were cut come up with the price. They have no option in the matter, it is said, but will be compelled to pay whatever the state demands for the ties.

It is public that the Chicago contractors bought the ties from the contractors without knowing that they came from state lands, and that the purchasers were not to blame for the theft.

All this indicates that the good days when pine barons could accumulate fortunes by cutting timber from state lands have passed away. If it works it will readily be seen that this came from state lands, and that the buyers of timber before cutting timber is a formality that greatly reduces the emoluments of that occupation, and when timber lands belonging to someone who is not watching them are cut, the building a house long enough to permit of the cutting and carrying away of all of the timber, the correct material for building houses and trimmings, at a yard—

A WOODSMAN KILLED.

Albion Lewis Meets His Death Near Grand Rapids.

Alfred M. Lewis, of Minneapolis, was killed Friday while working in the logging woods of a lumberman's camp, near Grand Rapids, Minn. Lewis is an Englishman, and formerly boarded at the St. Leon hotel in Minneapolis. He leaves a young wife in that city at 726 Sixth street S., and was 35 years of age. His mother, Emma Lewis, resides at Eaton Grove, near London, England. Undertaker Terence Connolly, of Hennepin county, has telegraphed Coroner C. M. Storch, of Itasca county, to forward the body and effects to Minneapolis, Lewis left Minneapolis, Dec. 29, for the woods. He has a brother residing in the United States, but his address is unknown.

FIGURES TELL THE STORY.

Success of Municipal Ownership of Gas and Water Plants.

To the Editor of The Herald:

To be sure to those in this city who would make the people believe that, at least the water plant is a losing enterprise, conducted by the city (the people), the figures tell the story. "Sunt qui dicunt omnia"—there are always those who talk. But the facts are that William Johnson, a colored porter in a respectable house, was called as a witness by Mr. Sheehy, who was charged with stealing \$500 from him, but up to date had paid nothing but a promise to pay.

Miss Cook is quite an attractive young woman, 21 years of age. She lives in Mountain Iron. Her first met Sheehy, three years ago. Her parents and her home were in Canada, and she had always heard her father and mother speak well of the city. She had heard that it was a place where a girl could find a husband, and she was interested in it. She had heard that it was a place where a girl could find a husband, and she was interested in it. She had heard that it was a place where a girl could find a husband, and she was interested in it.

She denied that she had ever taken supper with Sheehy in a hotel, or had ever lived with him. The night that Sheehy claimed she stole his watch at a private club in the Hotel Northern, she proved conclusively that she was at her home. When Sheehy told her that he had found her watch in Duluth that night, he took her and took her from her, compelling her to go with him. He followed her to her home, and was threatened with her.

A attorney C. O. Baldwin, for Miss Cook, took particular delight in jabbing this bit of gallantry into the ex-pugilist's emotions. He followed this up by having her reduced to the clothing of a back of a defenseless girl in midwinter weather. He followed this up by having her reduced to the clothing of a back of a defenseless girl in midwinter weather. Oranges Firmer in Price.
Oranges were firmer yesterday on news from California, and a violent storm in the Pacific coast. California oranges were quoted at \$2.50 to \$3.00, and seedlings were quoted at \$2.00 to \$2.50.

Is Allowed One Cent.
Yesterday afternoon the jury in the case of J. Sanson against the Western Union Telegraph company, for the non-delivery of a message, returned a verdict of one cent. The case occupied much of the day, and the jury was in the afternoon. It was claimed by the plaintiff that he had sent a message from Duluth to Chicago, and that the company had failed to deliver it. The company claimed that it was a street not given in the directory, and that the messenger was unable to find the person for whom the message was intended.

Palatine Anniversary.

More About Silks

We count it fortunate, for you and for us, that this stock is fresh and stylish throughout; for there's a constant temptation--which is often costly--in goods that are low in price, though out of date and otherwise undesirable.

The Silk market is strong; really new and fashionable weaves command full value. Prices will probably go higher, even here--when present stocks for spring are sold. Meantime, new patterns for 1900 are daily added to our offerings--already the largest collection of strictly up-to-date and high-grade Silks in this section of the Northwest.

Many are under value because price is based on '99 cost. We'd attempt to describe the stock if we thought we could do it justice, but we can't--not with newspaper type, at least--but you are more than welcome to come and see them.

The New Wash Silks at 50c, of which you've read and heard so much about, have been selling beyond our expectations. Some few styles are already closed out, but the present assortment is large enough to suit any fancy. Heavy corded effects in Blue and White, Old Rose and White, Pink and White, Helio and White, Ox-Blood and White--all on sale at 50c the yard.

New White Silks--

Satins, Taffetas, Crestals and Lace Stripes--the assortment is complete and the price range sufficient to please any price.

Persian Stripes.

Alternated with Lace Stripes, in Yellow, Green and Helio. \$1.25, \$2.00.

Satin and Lace Stripes.

Yellow and Helio in White, Blue and Pink. \$1.25 and \$2.00.

Plisse Stripes.

On stripes with a shirred effect, very well and uncommon, colors Red, Ivory, Blue, Green and Helio. \$1.25 and \$2.00.

Narrow Lace Stripes.

In an extensive line of colors, including Red, Tan, Brown, Gray, Green, Blue, Helio and Navy. \$1.25.

Stitched Cords.

And applique designs, very rich and extremely stylish, and about half as expensive as you'd expect. \$1.25 to \$2.00.

New Colors--

In Plain Taffetas--18 new shades are in for spring--besides our regular staple shades that we carry at all times. Many pastel shades are included.

Applied Patterns.

In endless assortment--and reliable, every yard, we pride ourselves upon the goodness of staple silks; they are the very best that we know how to buy--the very best that you can buy anywhere at any price.

Plain Black Silks and Satins.

In endless assortment--and reliable, every yard, we pride ourselves upon the goodness of staple silks; they are the very best that we know how to buy--the very best that you can buy anywhere at any price.

A Complete Line of Plain Taffetas.

Of the very highest grade; some shades, including White, Cream, Helio, Tan, Red, Brown, Pink, Rose, Green, Cardinal, Wine, Lilac, Lavender, Helio, Purple, Plum, Pale Blue, Pale, Doney, Marine, Navy, Corn, Canary, Yellow, Pale Green, Apple, Emerald, Rosado, Myrtle, Gobelin, Smokey Blue, Silver, Pearl and Stone Gray.

Rare Dress Goods Opportunities In Black and Colors.

Only a portion of the new Spring importations have come in, and the domestic mills have yet to send us many of their later patterns; but we already show, in Colored Dress Goods, a finer variety of fabrics and colorings than we believe exists elsewhere in this part of the Northwest. And the display of blacks is equally complete. In both sections are the latest weaves in heavy, rough-faced goods for tailored gowns, and in medium and sheer fabrics for the new clinging dresses. We mention sixteen items that are sure to prove interesting:

Colored Dress Goods.

Scott Suitings--Never shown in this country at less than \$2.75 the yard before. The favorite spring mixtures of gray, tan, or sage green, with a touch of red and black. Full 56-inches wide, at \$1.50 the yard.

Golf Suitings--The reversible kind, some plain on one side, some plain on both sides, but different colors. All extra heavy weight. Quite new and very choice. They have secured many compliments from women who have seen them. Several grades and the starting point is \$1.35 a yard.

Camel's Hair Cheviots--Good heavy weight materials, full 52-inch width. The colors include black, all shades of blue, castor and garnet, priced at 69c, 85c and \$1 the yard.

Heavy Frieze Suitings--Extra heavy weight, may be made up without lining. Full 56 inches wide at \$1.50 the yard.

Homespuns.

Worth more than we are selling them for. They are very desirable in the Blues, Grays and Browns.

Pearl Gray Suitings.

They are very scarce, in choice weaves such as we are showing, namely, Venetians, Broad Cloths, Coverts.

Heavy Homespuns.

In the tailor weight, for Suits and unlined Skirts, colors Pearl, Gray, Castor and Oxford.

Ziboline Skirtings.

Full 56 inches wide and heavy weight; colors, Blue, Brown and Gray.

New Tailor Suitings.

Genuine heavy imported English Suitings, used by the leading ladies' tailors of London here in a variety of styles, in the modish shades of gray and brown. The patterns are in all rich effects of invisible checks and broken plaids as well as mixtures. These goods are exclusive importations controlled by us in this market and are unexcelled for durability and elegance. Full 57 inches wide and priced at \$2.50 the yard.

Other New Materials--The proper fabrics are heavy Zibolines, Homespuns, Tweeds and Striped Fancies, in castors, browns, blues and grays. These materials combine durability with style and economy. Full 54 inches wide at \$1.25 and \$1.00 the yard.

50c Dress Goods--Don't forget our line of 50c Dress Goods, which in search of something serviceable for the least money. Every piece bran new and up-to-date, including 56-inch Repellants Skirting, plaids, changeable granites, and New Novelities, displayed on third table, Dress Goods aisle.

All Wool Henriettes.

In evening shades, such as Old Rose, Helio, Blue, Pink and Sapphire Blue.

Spring Venetian Suitings.

In the proper weights and colors, such as Dark Blue, Dark Brown, Dark Green, Cream with Rose Buds, Turquoise with Gold Coin, Black and Sumatra, Black with Rose Buds, and Navy with Rose Buds and vines. They are stylish and selling like hot cakes, in Black and Navy only.

Pepple Cheviots.

Very stylish and selling like hot cakes, in Black and Navy only.

Black Dress Goods.

Imported Novelities--A few exclusive lengths of very choice numbers, an index to the coming styles arrived yesterday. Fluffy Silk Crepons, Gauzy Grenadines, Lace Stripe Novelities, and Silk Figures are the predominating features in novelities.

New Mohair Crepons--With a mixture of silk, in entirely new designs and of extraordinary beauty, at \$2.75 the yard.

New Satin Venetians.

The latest Parisian fad--very smooth and shiny--the proper material to trim with, fringes and ruffles, \$1.50 the yd.

Black Zibolines.

New choice numbers and very popular. The latest fad--very smooth and shiny--the proper material to trim with, fringes and ruffles, \$1.50 the yd.

New Crepons at \$1 a yard.

Fully \$1.50 worth in every yard we sell--we shall not give the why's and wherefores--simply see them--\$1.50 value on sale at \$1.

Black Goods--Tore.

Some very choice numbers in Poplins, Pongelines, Cheviots, Clay Wards, French Crispe, Storm Serges, Broadcloths and other plain and fancy weaves have just been added to the stock, making it very easy to find just what you are looking for.

French Challies.

In all-Wool and Silk and Wool. The designs are handsomer than ever, colors are Red, Gray, Blue, Black and Helio, Gray and Helio. Pink with Rose Buds, Cream with Rose Buds, Turquoise with Gold Coin, Black and Sumatra, Black with Rose Buds, and Navy with Rose Buds and vines. They are stylish and selling like hot cakes, in Black and Navy only.

New Golf Skirts for Spring of 1900

Popularly known as the "Rainy Day" Skirt. The proper thing for this weather; excellent for skating, walking, and out-door use. Correct for traveling--made of double texture cloth--Golf cloth (plaid one side, plain the other). Tailor-stitched and Tailor made and fashioned throughout; 10 different colors; 7 different pieces.

New Black Taffeta Waists--and different from earlier ones. All over corded and pleated, of extra quality heavy taffeta, new sleeves, collars and cuffs. We sold immense lots of them and have yet to hear one complaint, \$6.75.

Decidedly New Black Taffeta Waists--V shaped yoke front and back, with fine tucks, scalloped edges, new collars, sleeves and cuffs of \$10.50 value, at \$8.75.

More New Cotton Waists!

Bright sunshiny days (though snappy) bring out short waist buyers. We've sold more already this month than in twice the time last year, possibly because times are better, more people plentiful, and prices at their lowest, for everyone knows how stuffs and labor are going up, and more than that choice things will be harder to get this season than ever. Fifty distinct styles are here, plain and fancy effects, Laines, Percales, etc., yokes or not, beautiful new ideas at \$1.50 and \$1.25 and down to 85c, higher up to \$2.75.

Flannel Waists. Some excellent numbers are here to finish out the season, reduced of course, very much so.

Silberstein & Bondy Company.

EXAGGERATED.

Story as to Alexander Cameron's Injury Incorrect--A Remarkable Career.

Last evening's Herald contained a special received by the Chicago Times-Herald, from New Haven, saying that Alexander Cameron, of Duluth who is a student at Yale, had been forced to give up his studies and relinquish his hope of winning a philosophical degree because of an accident he had received there. Mr. Cameron is blind. The dispatch was the first that his family had heard of anything of the kind, and they were immediately very much alarmed and wired Yale college to learn the truth of the matter. An answer received last evening was as follows:

"Met with slight accident week ago. Is all right now. No trouble."

Mr. Cameron has already gone to St. George's, New Brunswick, to take charge of a pastorate. He is a Baptist preacher. He will remain there, but will take his examination for his degree next June. This was all arranged before his leaving, and the accident had nothing to do with his plans.

Mr. Cameron is the son of Mr. and Mrs. Thomas Cameron, of 1123 East First street, in this city, and his case is a very remarkable one. He has been blind since he was 5 years old, but is exceptionally bright and quick to learn. He graduated from the Duluth High school eight years ago. His lessons were read to him by the members of his family and copied by him on a type-

writer. Mathematical problems, including arithmetical and algebra, he solved and worked out in his mind. At the time of his graduation he made a fine speech at the commencement exercises. From the Duluth High school he went to Carleton college, at Northfield, and finished the four-year course in three years. At Yale his brother studied, and he has acquired himself with great credit.

Golden weddings are taking place all over the country. The old couples evidently took Rocky Mountain Tea in their young days. Thirty-five cents. Ask your druggist.

THE FORFEITED TAX CASES.

Argument to Be On Before the Full Bench Tomorrow.

Tomorrow morning the forfeited tax cases will be taken up in district court, and though the day is a legal holiday the arguments on the several cases that have been submitted will be begun. For the multiplicity of counsel interested in the cases and the time already taken, the court room upstairs, tomorrow will be a quiet day at the courthouse. Washington's birthday is a legal holiday and the offices down stairs will all close up out of respect for the holiday and in order that the employees may take a much-needed rest.

THE MARCH TERM.

Notes of Issue Must Be Filed By Wednesday Next.

Next Wednesday, Feb. 28, is the last day for filing notes of issue for the March term of district court, and in order to get cases on the calendar for that term it is essential that the notes of issue should be filed by that date. The term begins Wednesday, March 7, on which day the grand jury will meet and the calendar will be called. The next day, according to the usual custom, will be taken up hearing divorce cases, and the regular calendar will not be reached before Monday, March 12, for which date the petit jurors have been summoned.

The term is not likely to be an especially long or important one, unless in the time between today and next Wednesday there is a material change in the outlook.

SHEEHY ARRESTED

His Own Witness Waters Charges Him With Threatening an Assault.

UNDER HEAVY BONDS

Surety of \$500 For Appearance For Trial on Friday Is Required.

Joe Sheehy, the ex-pugilist who made such a frantic endeavor to destroy the character of a young girl in police court yesterday afternoon, was arrested this morning for threatening one of the witnesses of yesterday's sensational trial. The complaining witness was T. J. Waters, bartender of the Windsor hotel. Yesterday Sheehy insisted on having Mr. Waters for a witness against Miss Cook, and called him for the purpose of having him testify that he had met Sheehy and the young lady in the Windsor hotel on several occasions. Waters, when asked by the prosecution to identify the girl, said that he never saw her before, and he supposed that Sheehy meant another woman. This morning, according to Waters' story, Sheehy came up to him at the Windsor hotel, and with considerable emphasis in the way of profanity, wanted to know why he had not gone on the stand and identified Miss Cook as the woman that had been with him in the Windsor. Mr. Waters says that he told Sheehy that he never saw the girl before, which Sheehy is said to have replied: "Well, why didn't you go on and swear you did, anyway?" He then threatened to assault the bartender, who immediately went to the city hall and had a warrant sworn out against the ex-pugilist. Sheehy was arrested by Court Officer Marshall, and Judge Geartart set his examination for Friday morning, fixing the bail at \$500. The amount astonished Sheehy, but through the efforts of two friends he succeeded in raising it.

HAS ONLY SIXTY DAYS.

John E. Searies Must Start Car Works Within That Time.

The mortgage given by John E. Searies, of New York, to the Metropolitan Life Insurance company on the West Duluth car works, which have been purchased by Searies, includes a very peculiar provision. It is provided that Searies shall forthwith, and within sixty days from Feb. 9, 1900, put the premises in good repair and in suitable condition for manufacturing purposes, and that he shall within sixty days from Feb. 9 begin manufacturing operations. In case of default in this provision the mortgage becomes due and payable just as though default had been made in any other provision of the mortgage, such as the payment of interest.

Neither the deed nor the mortgage have yet gone on record, the taxes not yet having been cleared up, and it may be several days before they are recorded.

CHANGE OF SIGNALS.

Supervising Inspectors Adopt Some New Ones.

The supervising inspectors of the United States have amended the pilot rules as to the code of signals made between master or pilot and engineer, to be made by bell or whistle, so that the signals will be as follows: One whistle or 1 bell, go ahead; 2 whistles or 2 bells, stop; 3 whistles or 3 bells, back; 4 whistles or 4 bells, anchor; 5 whistles or 5 bells, all right. Two whistles or 2 bells shall always mean back, irrespective of other signals previously given.

The rules have also been changed so that a vessel, when towing, shall give a different signal in a fog, mist or snow storm than a vessel which is running alone. The steamer which is towing is to give three whistles at intervals of one minute, while the vessel which is not towing is to give one long blast at intervals of one minute.

"Joanne of Arc."

The entertainment at the High School Friday evening, in which J. S. Griffin, reader, and the full chorus of the High School Musical society will present the music-drama, "Joanne of Arc," is attracting considerable interest, and it is expected that there will be a large attendance. The text is by Jules Barbier, author of the libretto "Faust," and Gounod's music has been arranged by George Black, composer of "Carmen."

The entertainment is something out of the ordinary, and it is said that the reading, which will be done by Mr. Griffin, is dramatic and pleasing in the extreme. The music of the High School society, it is unnecessary to say, will be excellent under the direction of Mr. Custance.

MOB SPIRIT THE WORST

Threatens This Country Worse

R. Wendling.

FRENCH REVOLUTION

Gets Text For His Warning
From History of French
Uprising.

Scholarly in conception, graphically descriptive and eloquently delivered, George R. Wendling's lecture on "Mirabeau and the French Revolution," at the First Methodist church last evening, deserves classification among the best lectures given in the city for years. A lecture dealing with one of the greatest tragedies that the world has ever known, and with such persons as Louis XVI, Marie Antoinette, Guadet, A. de Lameth, Montesquieu, Robespierre, and above all the eloquent Mirabeau, is sure to be intensely interesting, and to this Mr. Wendling added a nice balance of rugged American sentiment and sturken of pathos, always endeavoring to afford an insight into the causes, violence and passion of the period he was endeavoring to portray. At the same time bringing out the danger of the mob spirit with unique force. He said that the only element that could possibly stir up the American people as it did the French in 1793, was mob rule, against which he spoke most eloquently.

He told of the rapid current of events which led to the convulsion of the state's assembly at Versailles, and the efforts of the clergy and the aristocracy, comprising one-half the state's assembly, to hold three separate meetings, with each class having one vote, so as to outbalance the "third estate," or common people. The French revolution, with 600 representatives and led by Mirabeau, took possession of the main convention hall at Versailles, and took solemn oath not to separate till France had been given a constitution which would protect the rights of the people. The speaker compared this gathering with that which framed the Declaration of Independence in Philadelphia in 1776. It was Mirabeau's impassioned eloquence that raised the French revolution, and it was Mirabeau who directed the storm. The lecturer reviewed the terrible events of the French revolution, when France was in possession of a mob and destruction was rampant; the death of Mirabeau, the selection of Robespierre as his successor; the fall of the Bastille, and the execution of Robespierre, and the ending of the conflict by Napoleon.

From all this turmoil he drew a lesson for American national life. He referred to the present prosperity and the present decay of the United States, but he saw far off in the edge of the horizon a small cloud, not larger than a hand, which if allowed to develop, would likely sweep the nation as a destroying storm. This cloud he designated the mob spirit. It was not dangerous now, but in this country there is a constantly growing populace of foreign agitators, imported anarchists, labor agitators, parasites, which in time would make a nucleus for just such a revolution as that which rocked France for ten long years.

Mr. Wendling said that the trusts did not threaten our national destiny, for the American people were too strong and too numerous to be threatened by such a state as was threatened in France. The form of government it was only the madness of the mob spirit that was threatening, and he advised that it be crushed out.

A RECEIVER NAMED.

Properties of James Stinson at Superior and Elsewhere Involved.

James Stinson is a name well known at the head of the lakes to the old residents, and one that has been identified with the only disaster of the Chicago stock market. He has large property interests on the other side of the bay. The news about him that this property was placed in the hands of a receiver, The Evening Telegram says:

Mr. Stinson's name was named as receiver for the Stinson properties. These properties include a quarter section adjoining the Southwestern Chicago stock farm about eight miles from the city, lands in St. Paul and Minneapolis, lands in Pine, Chicago and Morrison counties, Minn., and several thousand acres of land in Douglas county. Fifteen quarter sections of land within the city limits of Superior are included in the list, and were worth at one time about \$500 an acre. One piece of the land is near Twenty-eighth and Hammond avenue and in 1892 would have sold at \$2 per acre.

Mr. Stinson's liabilities are about \$500,000, \$250,000 of which arose from the failure of the Stinson bank in Hamilton, Canada. Most of this property is unproductive and no revenue is gained from it.

Heavy taxes and expensive litigation with the government and others during the past ten years have brought about the unfortunate condition of Mr. Stinson's affairs. This land was selected in very early days and was the best in every locality. About \$100,000 is due in taxes in this county, and it is said that there is also a large amount due on the property in other places. It is confidently thought, however, that abundant resources will be gained to meet the liabilities and leave a margin besides.

In 1891-2 the Stinson property was estimated to be worth about \$100,000. Mr. Stinson has about \$500,000 worth of stock in the Superior Consolidated Land company. He was well known in this city and was one of those who in conjunction with Stephen A. Douglas, J. C. Breckenridge, R. J. Walker and others laid out the original plan of the city of Superior in 1854. Mr. Stinson was always regarded as a man of integrity and was much respected wherever known. It is the sincere wish of all his friends that he will be able to clear himself from all indebtedness.

THEY KNOW THEM NOT.

Most People Unacquainted With Some Delicious Fruits.

"It is a curious thing to me," said a wholesale commission man yesterday, "that so few people here know anything about such delicacies in the fruit line as Japanese persimmons, nectarines and mandarins. The word persimmon makes the average person's mouth pucker, but the persimmon, when ripe, is sweet and palatable. It would be just as reasonable to give peaches a bad name because green peaches are hard and sour."

The Japanese persimmon, when ripe, is as delicious a fruit as grows. It has a sweeter sweetness than any other fruit, and yet it is not sticky. It is of a rich garnet color and trembles unimpeded, unquivered, like a parasite, which in time would make a nucleus for just such a revolution as that which rocked France for ten long years.

Mr. Wendling said that the trusts did not threaten our national destiny, for the American people were too strong and too numerous to be threatened by such a state as was threatened in France. The form of government it was only the madness of the mob spirit that was threatening, and he advised that it be crushed out.

Go Over to Tuesday.

The arguments of the forfeited tax cases, which have been held today, have slipped off five more days into long future, and will be held next Tuesday morning, at 9:30 o'clock. Some of the attorneys disputing the matter are Mr. J. H. Washington's birthday in this manner, and besides, they figured that it was a time when they would be busy in the city to prepare for the efforts they are to make for and against the forfeited tax cases.

Sent to Fergus Falls.

Louis Larson, the insane man who was brought down from French river Tuesday, was examined before Court Commissioner Halmhaug yesterday afternoon. During the examination his conduct was quiet and peaceable, but he was found insane and ordered committed to the insane hospital at Fergus Falls. When he was returned to the jail he broke out again, and had to be shackled foot and hand. The shackles were not removed from him, and he kept up his obstreperousness until he was taken to the train last evening. His hallucination is that he is being pursued by some one who has an intention to do him harm, and he called upon his friends who called upon him yesterday.

A Delightful Concert.

A delightful program of music, both vocal and instrumental, was given at the Pilgrim Congregational church last evening. The concert was given under the direction of Harry Woods, and was for the benefit of the Sunday school. There was a good attendance, notwithstanding the many other counter attractions, and the program was presented with a good deal of excellence as well as with vigorous applause. Those taking part were: Miss Helen, Mrs. O. J. Smith, Mrs. J. H. Mandel, Frederick Bradbury, F. Chaffee, Robert Cox, Harry Woods, Frederick Hoffman, J. Mandel, N. D. Marco, Chaffee's Male quartet, and the American Mandolin orchestra. The entertainment netted a generous sum to the Sunday school treasury.

ABRILLIANT WEDDING

Church Filled With Friends—
Large Reception at
Home of Bride.

The marriage of Miss Blanche Latimer Howe, daughter of Mr. and Mrs. George C. Howe, and Alexander Duncan McRae, took place last evening at the First Presbyterian church, and was a most beautiful wedding. Duluth has had many brilliant weddings, but none surpassed in beauty and completeness of detail the happy event of last evening. Long before the hour fixed for the ceremony, which was 8 o'clock, the church began to fill and when the bride party made its entry every seat in the large auditorium was filled.

The church decorations were very handsome. The organ loft and rear of the pulpit were draped with ground pine arranged with portiere effect. A large strand of ground pine was drawn across the organ loft at such height as to screen the choir and from this strand of ground pine were suspended and were caught at each side with heavy white satin ribbons. At the junction of the two portieres there was a large bow of white satin ribbon and just over the pulpit there was a large bunch of white carnations. The pulpit steps and the large platform which had been extended to the front, almost to the rostrum, were carpeted in pure white. The entire decoration was in the wedding colors, green and white. Two white satin pillows were placed just before the pulpit and upon these the bride and groom were seated. The bride's husband and friends enjoyed in the huge rooms during the year, so they were entitled to some compensation, and as such every man in the house was entertained in the best of the hotel. In behalf of the lodge he bade them good evening, and the evening would prove enjoyable to them.

A most beautiful musical program followed. Etta Jelle Fournier sang two selections charmingly, and "Springtime" by Hahn, in a very pleasing and melodious manner. The soloists were William S. McRae, Norman Leach and Joseph W. Reynolds. Following the ushers were the bridesmaids, Miss McDonald, Miss Harvey, Miss Hearn, of Toronto; Miss Davidson and Miss Stanford, of Minneapolis. The bridesmaids were dressed in white, and the bridesmaids and brides were beautiful groups of white. The bride wore a white gown, and the bride's husband was in a white suit.

The bride was escorted by her father, who wore an exquisite gown of heavy tulle, and she wore a very long train and chiffon ruffles headed with rennaissance and pearl ornaments. MME. NEVADA AND THE KNABE...

How natural to expect that the KNABE Piano will be used at the EDM-MA NEVADA attraction at the Lyceum. No other Piano would do to accompany a voice so unusually sweet and sympathetic. There are many singers, but only one NEVADA. There are many Pianos, but only one KNABE, the queen of Pianos, sold at reasonable prices for cash or easy payment plan.

They will be in Paris at the opening of the great exposition. They will return to Duluth in about three or four months.

THIRTY YEARS.

Palestine Lodge Celebrates
the Completion of That
Period of Existence.

The thirtieth anniversary of the institution of Palestine lodge, A. F. & A. M., was celebrated at the Armory last night in a very brilliant manner, and the entertainment was one of the most successful ever held under the direction of the lodge. At least 1000 people were present to assist in the celebration.

The program was opened at 8 o'clock with the playing of a march by Platen's full orchestra. S. O. Sterrett, a worshipful master of the lodge, then gave an address on the history of the lodge, and the purpose of the celebration, he said that the entertainment was prepared more for the benefit of the women than for any other reason. They are denied participation in the fun of the lodge, and he endeavored to give them a share of it.

The first musical program followed. Etta Jelle Fournier sang two selections charmingly, and "Springtime" by Hahn, in a very pleasing and melodious manner. The soloists were William S. McRae, Norman Leach and Joseph W. Reynolds. Following the ushers were the bridesmaids, Miss McDonald, Miss Harvey, Miss Hearn, of Toronto; Miss Davidson and Miss Stanford, of Minneapolis. The bridesmaids were dressed in white, and the bridesmaids and brides were beautiful groups of white.

A SLUMP IN WHEAT

Market Opened Weak and Depressed, Steadied But Turned Easy Again.

THE CABLES LOWER

Large Argentine Shipments Were the Main Cause of the Weakness.

Duluth, Feb. 23.—The wheat market opened weak and lower at the opening this morning. The chief cause of the depression was the heavy amount of Argentine shipments, which also had the effect of causing weakness in the Liverpool market. On the other hand, the Paris market was higher and the domestic winter wheat crop report was reported not to be quite up to expectations, and these factors had a steadying effect. After noon, however, the market turned weaker and closed 1/2c lower than on Wednesday here and 1/2c lower at Chicago for the May option.

There was a full amount of trading on the Duluth market. May wheat opened at 92c, advanced to 92 1/2c at 10:05, and then fell to 92c at 10:15, and then to 91 1/2c at 10:25, and then to 91c at 10:35, and then to 90 1/2c at 10:45, and then to 90c at 10:55, and then to 89 1/2c at 11:05, and then to 89c at 11:15, and then to 88 1/2c at 11:25, and then to 88c at 11:35, and then to 87 1/2c at 11:45, and then to 87c at 11:55, and then to 86 1/2c at 12:05, and then to 86c at 12:15, and then to 85 1/2c at 12:25, and then to 85c at 12:35, and then to 84 1/2c at 12:45, and then to 84c at 12:55, and then to 83 1/2c at 1:05, and then to 83c at 1:15, and then Are You a Good Judge of Clothing?

Most people do: in fact, not one person in a hundred can tell much about it. All new clothing looks well, but there's another thing to consider. The workmanship, quality of materials, trimmings and linings are all essential points in GOOD CLOTHING, which only can be proven right by several weeks of solid wear and then the mistake is often discovered too late. The clothing we sell has been selected and made by experts. The minutest details have received careful consideration—the inside has been rigidly examined—the workmanship and fit closely observed. We offer you the advantage of immense assortments and insure you against all risks by guaranteeing perfect satisfaction or your money back.

These splendid values will surely interest the men of this community tomorrow.

WERE ABUSED.

Treatment of the Prisoners at Waldner Described by Witness Stinson.

Washington, Feb. 23.—The investigation of the treatment of the military and civil authorities for the Couer d'Alene mining riots was continued today by the house committee on military affairs.

William Randolph Stinson testified at length as to life in the "bull pen," where the accused miners were incarcerated. His description was supplemented by a large number of photographs, showing the prison enclosure, consisting of a number of rude shanties, surrounded by a wire fence.

The witness was a school commissioner and was removed for alleged sympathy with the miners, and afterwards arrested. He said the "bull pen" was very filthy. The men ate off the ground, and the food was bad. There were practically no sanitary arrangements. The witness said his mail was opened. On one occasion, when his wife was badly injured and was in a delicate condition, he was refused permission to go to her. Mr. Stinson also told of the guard house, a part of the "bull pen," where he and others were held most of the time. The rain beat through it, and the inmates were often cooking wet. The straw had been trampled into the ground, and the officers in charge of the United States forces refused to allow him to be brought in. Many drunken soldiers were put for the guard house with the accused. An army officer, he said, ordered a corporal to take a cigar from the witness, and when the latter threw the cigar down the officer ordered the corporal to take it for not snatching it. The officer ordered that the man be treated with severity.

Extended discussion occurred among members of the committee over the effort of Mr. Lentz and Mr. Sulzer to introduce a newspaper interview with Barkley Sinclair, the auditor of Idaho. The committee finally voted not to admit that line of testimony. Mr. Sulzer noted an exception, and Mr. Lentz said the house was a superior body, to which appeal could be made.

The testimony of Mr. Stinson was in progress when the session adjourned until tomorrow.

WHAT FILIPINOS WANT.

Will Be Given Government They Desire, Schurman Says.

Chicago, Feb. 23.—President Jacob Schurman of Cornell university, and former head of the Philippine commission, delivered an address before the student body at the Armour institute today, in which he forecasted the report and recommendations of the commission soon to be published at Washington.

President Schurman said he had recommended to the president a government and constitution for the Philippines, identical as that framed by educated Filipinos, which is practically the governmental policy outlined by Thomas Jefferson for the government of the vast territory acquired by the Louisiana purchase.

President Schurman said further he was happy to state that President McKinley had accepted the recommendations, and was sending out a second commission to put this government in operation.

"To avoid any mistakes on the subject," said the speaker, "the constitution drawn up by Pedro J. Faterno, Aguila-

SHIP REPORTED LOST.

British Vessel Toronto From Pensacola to Havana Missing.

Pensacola, Fla., Feb. 23.—It is reported here that the British ship Toronto, which left Pensacola Tuesday morning from Havana, was lost in the storm that night. The Toronto should have reached Havana yesterday, but nothing was heard from her.

GATE CITY FLOODED.

New York, Feb. 23.—The steamship Gate City, of the Ocean Steamship company, bound from Savannah to Boston, which was stranded at East Moriches, L. I., on Feb. 8, has been driven hard on the beach by the storm. The vessel is flooded with water and her cabins have been smashed in by the heavy seas. Workmen are hard at work trying to keep down the water with steam pumps. The prospects of floating the vessel seem to lessen.

CONFERENCE WITH BRYAN.

Atlanta, Ga., Feb. 23.—Hon. Arthur Sewall, of Bath, Me., candidate for vice president on the Democratic ticket four years ago, had a conference today with Mr. Bryan on the train which brought the Nebraska to Atlanta and left at noon for New York. Mr. Sewall declined to give the nature of his talk with Mr. Bryan.

FAVOR TREATY.

Paris, Feb. 23.—M. Deleau, the minister of foreign affairs, and M. Mithouard, the minister of commerce, appeared today before the customs committee of the chamber of deputies and explained the government's position towards the Franco-American reciprocity treaty. Both the ministers urged its passage.

THE FAMOUS SHOE STORE

Will Bring Cheaper Shoes.

C. A. Day, formerly manager for A. Knudsen, the leading shoe merchant of Minneapolis, arrived in the city this morning and assumed the management of the Famous Shoe Store, at 111 West Superior street. It is the intention of Mr. Day to place out the present stock in as short a time as possible, and the wholesale cost or present condition of the market will not figure in clearing things up. Mr. Day considers Duluthians have paid too much money for their footwear and that the new scale of prices he will introduce here will be a revelation.—Duluth Herald, Feb. 23.

TRINKETS AUCTIONED

Bric-a-Brac, Bought By Mrs. O'Neill and Charged, Is Knocked Down.

JAM IN SALESROOM

Some of the Articles Fetched High Prices—Others Went Cheaply.

Chicago, Feb. 23.—The auction of some pretty things tonight at the Washington Club, O'Neill is under way at a store at Washburn avenue and Van Buren street. When the sale began the store was packed with people and the interest at times was intense.

Women flocked with joy—almost when they captured for \$5 articles that would cost them \$25 anywhere else. Strong men went with bags—when a stronger man tried to take one. You just stood on every object that raised its self from the floor, and whether it was a steam radiator or a plush chair, was all one.

The collection of antique furniture, old paintings, rugs, books, objects d'art, etc., numbers some 700 pieces. About 100 of them were sold during the forenoon. The collection represents part of Mrs. O'Neill's work—shopping. She spent thousands of dollars in pretty things and tried to pay other thousands of dollars for other pretty things. Buying pretty things was a mania with Mrs. O'Neill. Other people are afflicted with the same mania, but most of them manage to restrain themselves at the critical moment.

But self-restraint and Evangelicalism O'Neill were strangers. "Where is?" the chairman would inquire. "Oh anywhere," she would reply. "Anywhere, so long as it's a place where they keep pretty things."

And the pretty things she bought—Vases, lampshades, china, pearl necklaces, living cups, old-fashioned boxes of Balgownie and Shakespearean association—in full view, beautifully-carved clocks that make the householders' mouths water, old paintings, rugs from the Orient—enough to fill a city with colored boxes, boxes, boxes, boxes, boxes—what didn't she buy?

One would think, to run over the catalog, that Mrs. O'Neill had intended to make the house furnishing of certain newly rich that are read about.

CALL ISSUED.

Democratic National Committee Calls National Convention For July 4.

Washington, Feb. 23.—The national Democratic committee has issued the following call:

"The national Democratic committee having met in the city of Washington, Feb. 23, 1900, has appointed Wednesday, July 4, as the time and has chosen the city of Kansas City, Mo., as the place for holding the national Democratic convention. Each state is entitled to a representation therein equal to double the number of its senators and representatives in the congress of the United States, and each territory, Alaska, Indian territory and the District of Columbia, shall have six delegates. All Democratic conservative reform clubs of the United States, irrespective of past political associations and differences who can unite with us in the effort of pure, economical and constitutional government, and who favor the republic and oppose the empire, are cordially invited to join us in sending delegates to the convention."

The committee decided the District of Columbia contest for national committee in favor of James L. Norris. The committee at 6:30 p. m., last evening adjourned to meet at Kansas City July 3.

THE CONVENTION HALL.

Is One of the Finest Auditoriums in Existence.

Kansas City, Mo., Feb. 23.—Convention hall, where the Democratic convention will be held July 4, is situated at thirteenth and Central streets, four blocks from the retail district of the city. It has been classed by travelers as one of the largest and most perfect.

HAS CRONJE ESCAPED?

Berlin Newspapers Learn From Official Sources That Cronje Has Forced His Way Through the British Lines.

Story From Durban That Cronje Has Surrendered Not Confirmed by the British War Office.

Berlin, Feb. 24, 6:02 p. m.—Several newspapers here announce that they learn from official sources that Gen. Cronje has succeeded in forcing his way through the British lines.

London, Feb. 24, 2:15 p. m.—The dispatch from Paardeberg, dated Thursday, Feb. 22, made public this afternoon, shows that the condition of Gen. Cronje, apparently, had not changed for the better or worse up to Thursday, and confirmation of the Durban report announcing Gen. Cronje's surrender is eagerly awaited.

At this hour the war office has no news, and it is regarded as a curious fact that the first news of the surrender, if true, should have come from Durban. Lacking better authority, the Durban dispatch is regarded as a doubtful announcement.

The arrival of the British supply column at Paardeberg may have given Gen. Cronje the opportunity to resume his fierce attack on Gen. Buller's laager for, doubtless, he could not keep up the vigorous cannonade with which he started. Possibly the long wait may be due to a determination to endeavor to starve out Gen. Cronje's gallant force.

From Gen. Buller's point of view there is nothing new, but the retreat of Gen. Cronje seems to be having an effect on the Cape Boers, as a Dordrecht dispatch, dated Feb. 22, says they have opened negotiations for submission. Gen. Buller is treating with the Boers' pluck, and the wishes of the governor of Cape Colony, Sir Alfred Milner, is offering lenient terms, in the meanwhile ceasing offensive operations.

A special dispatch from Arundel, dated Feb. 23, says: "The Boers have formed a strong force seven miles west of here. Gen. Clements has kept up a searching fire on their bodies. We expect to take their position before sunrise in Pretoria."

A war bulletin published in Pretoria, Feb. 22, says communication with Gen. Cronje was still open Feb. 21, and that reports of heavy fighting as occurring east of Gen. Cronje's laager have been received.

A Sterkstroom dispatch on Feb. 23 says a British refugee from Heidelberg asserts that the Boers have admitted losing 500 men in the assault on Ladysmith Jan. 6, and that it was true Gen. Joubert was no longer in command. He added that some Free States were publicly begged for cowardice after the battle of Belmont.

The British casualties at Koodoosberg, dated Feb. 7 and killed 16, were seven officers wounded, four men killed and ninety-six men wounded.

SITUATION AT PAARDEBERG.

British Fire Continued Intensely—Shrapnel Made a Dash.
 Paardeberg, Thursday, Feb. 22.—There is little change in the situation. There was intermittent shelling today and during the night a large supply column arrived.

It is reported that 2000 Boers are operating northwards of this place.

Yesterday evening, after the last gun had been fired, the Shrapnel rushed forward 500 yards further towards the bed of the river and found a number of Boer dead.

Gen. French captured seventy-five more prisoners who had previously escaped the cordon, and a patrol on the westward side took thirty more.

MASS NORTH OF KIMBERLEY.

Methuens' Patrols Discover the Boers Are Concentrating There.
 London, Feb. 24, 4:15 a. m.—The British cavalry patrols, sent by Lord Methuen north of Kimberley, discovered the Boers concentrating, whether for offense or defense, is simply conjecture. The Boers seem to be retreating from Gen. Gatacre's front at Sterkstroom in order to reinforce the Free States.

Ladysmith had not been relieved when the latest news left Natal two days ago. The Boers had then retreated half way between Ladysmith and Colenso. If only 6000 went to the Free State, as both the Boer and British accounts assert, the 12,000 men who are left may purpose to maintain the siege and to resist Gen. Buller within the beleaguered lines, although the impression at Gen. Buller's headquarters is that the Boers are merely covering a retreat.

The radicals in the morning papers

complain most vigorously of the insufficiency of the government's naval proposals, in view of Germany's great preparations.

The Conservatives and Unionists argue, "because the British navy is probably considered strong enough for its work," though the nation will ask for full assurance on that point.

The Daily News says: "The proposals are so inadequate that we cannot but express the deepest surprise that the admiralty board can be persuaded to accept them."

The Daily News has the following dispatch from Kimberley dated Feb. 21: "Cavalry patrols that went north to capture the Boer 100-pounder report that the weapon has been taken beyond Rivereton station, drawn by thirty oxen. The British cavalry say that they saw Boer parties, but did not go beyond Rivereton for fear of being cut off. They learn, however, that the Transvaal were being concentrated on the border to the north."

"A party of Boers fired into the British camp. Fifty thousand rounds of ammunition was captured at Magersfontein. Cecil Rhodes will leave for England."

"W. E. Chapman, with thirty men, held out for weeks against the Boers at Otto Kopje mine until relieved from Kimberley."

BULLER'S CASUALTIES.

He Reports Two Officers Killed and Fourteen Wounded.
 London, Feb. 24.—The war office today received from Gen. Buller a list of casualties resulting from the fighting of Feb. 22 as follows:

Killed—Lieut. H. C. C. Cathcart (son of Lord Cathcart) of the Lancashire brigade; Lieut. Parker of the Lancashire brigade.

Wounded—Fourteen officers, including Maj. Gen. Wynne and Col. Harris.

Gen. Buller concludes: "Owing to the continuous fighting, it is impossible to give the number of men killed or wounded."

ATTACHES LAND.

Lorenzo Marques, Friday, Feb. 23.—The French steamer *Grande* has arrived here, bringing the American and French military attaches bound for the Boer camp. The steamer also had on board 150 heterogeneous passengers, including eighteen Montenegrians in national costumes, all bound for the Transvaal.

WEBSTER DEAD.

The Owner of the Electric Light Plant at Eveleth Killed.
 Eveleth, Minn., Feb. 24.—(Special to The Herald.)—The fly wheel on the engine of the electric light plant broke at 5 o'clock last night, killing the proprietor, C. H. Webster, and injuring Peter Smith. The flywheel was smashed and other parts of the building and machinery were damaged.

BRYAN CALLS IT UNFAIR.

Grosvenor's Statement Regarding His Advocacy of Philippines Treaty.
 Atlanta, Ga., Feb. 24.—William J. Bryan was asked last night if he had seen Gen. Grosvenor's statement in the national house yesterday to the effect that he (Bryan) was equally responsible with the Democrats who voted for ratification of the treaty, and was stopped from opposing any of its legitimate effects.

"It is true that I favored the ratification of the treaty," said Mr. Bryan, "but I stated in my interview, published by the Associated Press on Dec. 14, four days after the treaty was signed, or nearly two months before it was ratified, that in my judgment we should not only ratify the treaty, but that we should declare the nation's purpose to give the Philippines independence upon the same terms that independence was promised to the Cubans. This opinion was reiterated time and again. It is manifestly unfair for Mr. Grosvenor to charge me with supporting the treaty without pointing out that I favored the resolution promising independence, fathered by Senator Bacon."

SALES OF VESSEL PROPERTY.

Buffalo, N. Y., Feb. 24.—Capt. J. E. King is here in the interest of Duluth vessel and lumbermen and has bought the large Angus Smith for about \$700. He will look for a steamer and possibly other lumber carriers. He says that the steamer *Lafayette* boys and consort *Comstock* have just been put on the market, but they are too small for him. The prospect is that much lumber tonnage will still change hands before the opening of navigation, as buyers are very eager. This has set up the idea of owners and, as a rule, they are asking

FIRE IN PHILADELPHIA.

One Life Was Lost and Much Property Destroyed.
 Philadelphia, Feb. 24.—One woman killed, several others injured, and property valued at \$500,000 was destroyed by a fire which broke out last night in the heart of the wholesale millinery district on Arch street. The burned area covered nearly two acres, and that the flames did not do more damage was due to the magnificent work of the fire department. The woman killed was Clara Cohen, 25 years of age, a seamstress, who met death by jumping from a fifth story.

The fire started in the third floor, Nos. 721 and 723 Arch street, occupied by Simon May, manufacturer of straw goods. The greatest losses are those of Dunham & Co., estimated at \$250,000. Other losses are: Simon Cohen, \$25,000; Harris & Bernard Cohen, \$25,000; Finley & Co., grocers, \$25,000; and other firms and many small losses of about \$70,000. The losses are partially covered by insurance.

SCHOOL APPORTIONMENT.

Amount Per Pupil Largest Ever Allowed For March.
 St. Paul, Feb. 24.—The pupils in the schools of the state will fare better this year than in any previous year, as a result of the school fund.

The March apportionment is being prepared by the state board of education, and in round numbers there are \$26,000 pupils in the schools of the state. The board has authorized to pay \$1.25 per pupil, the highest amount ever allowed at a March apportionment. Last year the amount was 90 cents per pupil, and the year before that it was but 80 cents.

The reason for the increase is an addition of over \$100,000 in the revenue from the one-half mill school tax and the interest on school fund investments.

PROFESSOR PAIR DEAD.

St. Cloud, Feb. 24.—Samuel S. Simple Parr, city superintendent of schools, died yesterday afternoon, aged 53. He had been seriously sick for several days and his demise was not unexpected.

Mr. Parr was a former member of the State Educational association, and the present president of the Northwestern Teachers' association. He has been city superintendent here for eleven years and had been eminently successful prior to coming here. He had a chair in DePaul university, Green-castle, Ind., and in the Terre Haute, Ind., normal school. He leaves a widow and three children. The body will be taken to his boyhood home in Illinois and will be buried there.

APPOINTMENTS SUB-COMMITTEE.

Washington, Feb. 24.—Chairman Jones of the Democratic national committee, yesterday named the following members of the sub-committee of arrangements for the national convention. Senator Jones being ex-officio chairman: Stone, of Missouri; Johnson, of Kansas; Clayton, of Alabama; Campbell, of Michigan; Guffey, of Pennsylvania; Wilson, of Colorado.

TO ISSUE BONDS.

Cleveland, Feb. 24.—A meeting of the stockholders of the Cleveland, Lorain & Wheeling railway has been called for March 1 in this city for the purpose of issuing new bonds, not to exceed \$10,000,000. It is proposed to use about \$2,000,000 of the proceeds in retiring old bonds. The remaining \$8,000,000 will be applied to relaying and rehabilitating the track, buying new equipment, etc.

BLIZZARD IN ILLINOIS.

Mowqua, Ill., Feb. 24.—A blizzard prevailed throughout the state, with the thermometer dropping about 40 degrees and unsheltered snow suffered severely. The winter wheat is thought to be slightly injured.

TORINO IS SAFE.

New York, Feb. 24.—The steamer *Torino* arrived at Havana yesterday morning. The *Torino* is the steamer which was reported yesterday from Pensacola as having been lost in the storm on Tuesday night.

BRIBERY IN THE AIR

The Montana Atmosphere Fairly Reeked With Boodle, Mr. Nolan Says.

DALY ON THE SCENE

Clark's Arch Enemy Puts In an Appearance at the Hearing.

Washington, Feb. 24.—When the senate committee on elections assembled today, Marcus Daly, the head of the Montana opposition to Senator Clark, was present in the committee room and it was understood that he would take the stand some time during the day. While the responsibility for the investigation has been charged largely to him, he has not heretofore made his appearance before the committee. He entered the room quietly and took a seat with other spectators back of the seat occupied by witnesses.

Senator Clark was also present. He sat across the room from Mr. Daly, but the eyes of the rival millionaires did not seem to meet.

At the beginning of the day's session, Attorney General Nolan took the witness stand. He read a letter he had written to Congressman Campbell last fall promising immunity from prosecution to such as might testify to bribery as go-betweens during the session of the legislature. He said in the letter that he had conferred with the governor and that in case of prosecution and conviction the governor would exercise the pardoning power.

Referring to the Whiteside exposure, Mr. Nolan said the people of Montana did not believe there was any conspiracy. "The air was full of the evidence of bribery," he said. "You could cut it with a knife."

John R. Toole, of Anaconda, Montana, was next called. He is regarded as a confidential friend of Daly and is a member of the Montana legislature. He said he had conferred with Daly in mining and had, since June 1 last, been under a salary from him in connection with their mining enterprises. He also said that he considered he had Mr. Daly's confidence in political matters and knew the latter's plans. Notwithstanding this fact, he had, as a member of the legislature in 1898, voted for Mr. Clark for the senate. Indeed, he had been quite sure at a March apportionment of school funds.

The March apportionment is being prepared by the state board of education, and in round numbers there are \$26,000 pupils in the schools of the state.

The board has authorized to pay \$1.25 per pupil, the highest amount ever allowed at a March apportionment. Last year the amount was 90 cents per pupil, and the year before that it was but 80 cents.

RAILROAD MEN APPALLED.

Kansas City Railway Officials Facing a Trying Situation.
 Kansas City, Feb. 24.—Local railway officials are wrought up over the tremendous situation that they assert is presented by the Democratic national committee fixing the date for their convention in this city on July 4. Regular Fourth of July excursions, beginning on July 3 and running to July 5, they say, will alone tax the facilities of the railways to the utmost limit.

With a view to meeting the exigency, which is pronounced almost insurmountable, a meeting of the local passenger association to devise ways and means has been called for this afternoon.

GOVERNMENT DEFEATED.

Victoria, B. C., Feb. 24.—The Seimlun Cotton government, which replaced the Turner administration in British Columbia last politics in 1898, was yesterday defeated by one vote upon the redistribution measure upon which it was intended to go to the country. It probably is an outrage.

Q.—Do you know of any money being put up by Mr. Daly or any of his friends to defeat Mr. Clark in any other connection?

A.—I certainly do not.

Mr. Toole related a conversation with Representative McLaughlin at the beginning of the legislature, in which McLaughlin told him he was going to vote for Mr. Clark, as it was a "mere case of bread and butter for his family."

BRILLIANT WEDDING

The Nuptials of Miss Lillian Pauncefote and Hon. Robert Bromley.

PRESIDENT ATTENDS

The Cabinet and the Whole Diplomatic Corps Are Present.

Washington, Feb. 24.—The Hon. Lillian Pauncefote, daughter of Lord Pauncefote, British ambassador to the United States, was married at noon today to the Hon. Robert Bromley, of Stoke hall, Newark, Nottinghamshire, Eng.

The wedding was one of the most notable that has occurred in Washington for many years. Quaint old St. John's church, where the ceremony was performed, is one of the landmarks of Washington. An outwardly dingy little stucco-coated building of colonial type, just across Lafayette square from the executive mansion, its capacity is about 800, standing room included, and this did not serve to accommodate a throng of those who wished to witness the ceremony.

Owing to the official position of Lord Pauncefote, the presence of the president and cabinet as well as the whole of the diplomatic corps was an imperative social obligation, albeit a pleasant one, owing to the national regard in which the young bride is held by Washington society.

The interior of the little church was like the exterior a huge canvas of brilliant lighted altar in the depths of the darkened auditorium with its golden points and snowy candles formed the stamens and pistil, while the flower-encrusted walls and pillars through which the brilliant hangings scarcely showed, were like the petals of a monster blossom. The air was heavy with the scent of Easter lilies, bride's roses and orange blossoms mingling with the odor of the lilies of the valley and carnations.

The palms filled all the available space within the chancel, while broad white ribbons stretching down the aisles were dropped by the ushers, link by link, as the pews filled with the distinguished guests.

The ushers were all attaches of the embassy, Col. Arthur Lee, General Lowther, Sir Charles Elliot, Max Muller and Humphreys Owen.

The bride, to the great uneasiness of her friends, had been quite ill all the week, and leaned heavily on the arm of her father as the procession moved down the aisle. Her wedding gown was a full court costume of white satin, the front a gleaming network of lace and pearls, while masses of lace caught with orange blossoms edged the long court train from the shoulders to the floor.

A pretty feature of the bride's attendants was Master Sidney Kent Legare in the costume of a page of Charles II. He bore the heavy train and was followed by the bridesmaids. These were Miss Esther Bromley, sister of the groom; Miss Curzon, cousin of Lord Curzon, the vicereine of India; Miss Hatfield, daughter of the Hon. Sir John Hatfield; and Miss Lillian Pauncefote and Hon. Audrey Pauncefote, sister of the bride.

The ceremony was performed by Rt. Rev. Bishop of Washington Henry Yates Satterlee, assisted by Rev. Charles Mackay-Smith, of St. John's.

After the ceremony a wedding breakfast was served at the embassy to 400 guests. Mr. and Mrs. Bromley later left for Palm Beach, Fla., and will soon return to England, where the young matron will be presented at court.

GOL. KING DEAD.

Ex-Congressman and Journalist Passes Away at His Home in Minneapolis.
 Minneapolis, Feb. 24.—Col. William King, ex-congressman and a national character for the past forty years, died at his home in this city a little before 3 o'clock this morning.

Col. King was born in Franklin county, N. Y., in 1828. He was active in support of the Free Soil party in that state, and aided in the organization of the first Republican party in New York.

He came to Minnesota in 1858, was active in the anti-slavery contests and during the war. He started the Minneapolis Tribune, and was for several years on the St. Paul Pioneer press.

While in congress Col. King was the subject of a famous congressional investigation in connection with the Pacific Mail subsidy bill, but the investigation entirely cleared him of any improper act.

AFTER BANK OFFICIALS.

Warrants Out For Officers of Defunct St. Louis Bank.
 St. Louis, Mo., Feb. 24.—Warrants were issued today for the arrest of the president, cashier and directors of the defunct Mulvaney Savings bank, who are charged with wrecking that institution through criminal negligence.

STORM IN OHIO.

Cleveland, Feb. 24.—One of the fiercest storms of the winter prevailed throughout Northern Ohio today. A 40-mile gale from the northwest was accompanied by a heavy, driving snow, causing big drifts to form everywhere. The temperature fell rapidly. Trains on the trunk lines, especially westbound, were delayed.

ADVANCE PROBABLE.

Cleveland, Feb. 24.—As a result of a secret meeting of the Woodmenware association, which has been in session here for several days past, it is said there is likely to be another advance in prices of small woodenware articles. The meeting of the association held in this city a few months ago was followed by a 10 per cent advance.

Demand Was Slack, and Monday's Statistics Expected to Be Bearish.

How One Mother Saved Her Daughter

The first critical period in a woman's life comes at the passing of her girlhood. How to preserve the daughter's health at this crisis is the problem that confronts every mother of girls. Mrs. J. M. Riggs, of Carverville, Mo., solved the problem. She says:

"My daughter Jessie during the winter of 1897-98, suffered a complete breakdown in health. She was thin and pale, had no appetite, and was so weak that she was unable to walk to school. Those who knew her condition said that she was in the first stages of consumption. Shortly after school closed, on the advice of a neighbor, we began giving her Dr. Williams' Pink Pills for Pale People. The effect on her condition was marvelous. Before she had taken half a box her condition was improved, and she kept on gaining appetite, strength and health until she was entirely well."

"Who took three bottles of the pills and to-day there is not a healthier, more robust looking girl in Carverville. She is fatter and healthier than ever before in her life."

Subscribed and sworn to before me, a Notary Public, this 15th day of October, 1898. Wm. Wolcott, Notary Public.

From the Journal, Carverville, Mo.

A SPEECH BY TAWNEY

He Addresses House in Support of the Porto Rico Tariff Bill.

SCORES MAINE MAN

Attacks Argument Made By Littlefield--Clayton Argues Against the Measure.

Washington, Feb. 24.—The attendance in the house was thin and scattered during the early hours today when the Porto Rico tariff debate was resumed. The leaders on both sides showed much activity in canvassing the situation with a view to learning the chances on the final vote next Tuesday.

Mr. Clayton was the first speaker of the day, presenting a legal argument against the bill. He maintained that the United States military forces held Porto Rico against the treaty, and that the island became a part of the United States as the territory of Arizona.

Mr. Tawney, a member of the ways and means committee, criticized the debate by a severe arraignment of Mr. Littlefield for his speech of yesterday attacking the bill and its promoters. "What reason is there," exclaimed Mr. Tawney, "for the unprovoked and unprovoked course of the gentleman from Maine? What compelled him to leave the ranks of the Republican party and join the ranks of the Democratic party? Why is it that he should exhibit the want of general courtesy to the ways and means committee and to distinguished gentlemen on the floor? Can it be the spruce language of Maine, who will have to pay on their product entering Porto Rico 50 cents per 100 feet? It was not until the gentleman who raised their voice against this bill, the lumber barons of Maine, the oppressors of the people for whom the gentleman claims so fervently."

Mr. Littlefield listened to the speech, but made no effort to answer it. Mr. Tawney then devoted his attention to the merits of the bill. He said in part:

"It may not be out of place to refresh the memory of the gentleman from Maine, who is the author of the great problem confronting this congress. They are the direct and unavoidable consequences of a foreign war, instituted in defense of national honor and in defense of the moral demand of the people, regardless of party or section, and upon the maintenance of which the representatives of the United States are called upon to face the incidents of that war and solve in a practical way the problems thus brought to us. We find the people's representatives in this congress, the gentleman from Maine, who raised their voice against this bill, the lumber barons of Maine, the oppressors of the people for whom the gentleman claims so fervently."

Mr. Littlefield listened to the speech, but made no effort to answer it. Mr. Tawney then devoted his attention to the merits of the bill. He said in part:

STEEL PLANT TRANSFER.

Robert Kelly Says It Will Be Made In Thirty Days.

The steel plant at the West Superior Steel plant has not yet passed to the hands of the Lake Superior Steel company, but the indications are that within the next thirty days the entire deal will be consummated, said the Superior Telegram of last evening. Minister Robert Kelly, of the Land and River Improvement company, returned from New York today and says that such is the status concerning the steel plant. Speaking of the matter, Minister Kelly said:

"There have been complications which have hindered the closing up of the deal, but unless the unforeseen happens the sale will be carried through as at first planned. The deal to the plant in West Duluth has not yet been placed in the hands of the new owners, but it is expected that it will be ready for delivery. This will, I expect, be within thirty days as things now are."

The plans and specifications for the building of the plant here and for the machinery to be installed in it have now been completed. As soon as the property is formally transferred, therefore, the new owners will be ready to go ahead with their plans without further delay.

A GREAT RECORD

Duluth Outstrips Almost Entire Country in Transfers in January.

BUILDING FALLS OFF

Next Month Expected to Show Large Increase—Comment on Duluth Realty.

Last month Duluth realty made the most remarkable record of any real estate market in the country. In the actual volume of property transferred this city stands second among the thirty-five leading markets of the country excepting New York and Chicago. In dollars and cents the business transacted here exceeded that of St. Paul by \$1,568,782 and Minneapolis by \$1,477,100. Duluth did double the business of such markets as Philadelphia, Cincinnati, Seattle and Indianapolis and did four times as much business as Louisville, Toronto and Omaha. Even St. Louis failed to equal Duluth's record in actual business by \$101,000 and nothing could better advertise this city for investment than the following table, comparing the realty business with that of seventeen other leading markets:

City	Value
Duluth	\$1,522,000
St. Louis	\$1,283,975
Los Angeles	\$1,011,500
Pittsburgh	\$975,400
Cleveland	\$938,125
Indianapolis	\$852,700
Memphis	\$825,800
Seattle	\$662,700
Toronto	\$626,200
Omaha	\$426,175
Louisville	\$426,175
Portland	\$370,500
Minneapolis	\$370,500
Spokane	\$290,500
St. Paul	\$290,500

This record shows Duluth to have gained 64 per cent in the value of property transferred over January a year ago. The increase, percentage is the largest of any city in the country, the nearest to it being Buffalo with an increase of 120 per cent.

In building this city only shows an aggregate of \$42,000 which is a decrease from the record of a year ago of 71 per cent. The decrease is due to the fact that the building business is not so active as it was last year. The building business is not so active as it was last year. The building business is not so active as it was last year.

The New Spring Gowns.

Crepe de Chine Printed With a Colored Floral Design Makes a Swell Summer Costume Designed By Doucet.

Lace Yokes Much In Evidence. Ideal Spring Toilette By Paquin.

Paris, Feb. 15.—(Special to The Herald.)—One of a woman's first duties is to look pretty, and never before has she had richer opportunities to do so, for the shops are filled to overflowing with materials for making all the fascinating attributes to a woman's charm in being well dressed. Among the most recent triumphs of the manufacturer's art and fancy are the dainty crepe de chine, soft and flowing in texture and exquisitely tinted in the most delicate colorings and designs—the floral motif predominating. Being semi-transparent, they require a silk or satin lining, which is generally chosen of a shade to match the decoration and different from the background, and another reason for their popularity may lie in the fact that they combine so well with any of the varieties of beautiful hand or machine made lace now so much in evidence.

The handsome creation of Doucet's illustrated on this page consists of this combination. There is a light clinging skirt of rose-colored satin, cut in seven

New Costume for Spring and Summer

gases and with a slight flare and guilts of folds or wrinkles at the top of the back. The fashionable fullness is supplied by a deep ruffle of dark gray Luxeuil lace, which in turn is underlaid with a flounce of pleated rose-colored tulle, forming a rich foundation for the dainty lace. The tulle is of cream-colored crepe de chine, printed with large La France roses and foliage in natural colors. This tulle is cut in one piece, closing at the back and according with the trend of fashion in a series of fine pleats on either side of the placet at the back. The pleats are stitched in a short V-shaped point, but are released below to form the necessary fullness. In front the tulle is cut with a deep apron point which, like the back, is edged with an aquileted band of dark gray guipure, from under which falls a deep ruffle of Luxeuil lace like that on the skirt.

The bodice closes at the back. It is composed of the same printed crepe de chine, which is stretched without seams over the front and back of the light foundation of rose-colored satin, and finished on either side of the closing at the back with narrow stitched pleats like those on the tulle, and seemingly a continuation of the same. The yoke

bloused quite full and opens over the lace yoke with small satin faced revers. The closing is diagonal in front, and is fastened with two large Louis XVI buttons of hand-painted ivory. The tight sleeve shows an original conception, being slashed at the shoulder to disclose the satin-lined lace underneath, and finishing over the wrist with a deep bell cuff. The lace collar matches the yoke and shows a high flare at the back. The top of the bodice, the sleeves and the cuffs are edged with blue silk soutache braid.

FELIX FOURNERY.

HATS FOR SPRING WEAR.

Some of the Latest Millinery Creations Described.

New York, Feb. 20.—Hats are the real harbingers of spring; therefore, when I saw before the frosted shop window panes pyramids of straw, I straightway made close inspection to learn of the demi season chapeaux. The straw hat, perhaps, takes precedence even over the washable shirt waist, which is accounted usually the first sign of the times when we fit from fur to less imposing airy dresses. The new hats for immediate wear are divided into just two classes—those of straw and those of felt. They are crushed into a semblance of jaunty by various indentations; if belonging to the turban family, they are trim and dignified bits of headgear, made to sit on the head with rigid precision. Others, loosely woven straw, are of one kind or in several shades of the same color, are fashioned into really beautiful and simple types which require no trimming except a chon of velvet or an Alsatian bow of moline. These, as a matter of course, are "hand-made" hats, the straw braid being mounted on wire frames. Some practical developments in the matter of millinery during the past few seasons are quite worthy a paragraph; chiefest

to choose an untrimmed shape, which invariably presented a different appearance when rimmed from what was expected, and generally the decorative arrangement was unbecoming.

These difficulties are overcome by the hand-made hat, which really follows the outline of some special model, being perched high on one side or curving to frame the face or suiting the style of the wearer by its yielding graceful lines, and one can test its possibility, whereas the past conveyed no such idea. Hats of this character range from \$3.50 to \$10. They are of the very best materials and differ in price according to size and style of head used. Fancy braids of the two or three toned variety came across the water and are increased in price by import duty, while the plain straws of our own make are very cheap. The hand-made hat outwears all other kinds, and

If careful to select an evenly woven straw, our own is little less beautiful than that the foreign markets afford. The winter gown on the straw hat for rehabilitation and a Lenten tenure of office, to be enforced as weather permits by the thin shirt waist.

Tuscan braids and satin straws are extensively used for toques, while the all-over braid leads in fashioning the tureador turban, which is as pronounced in shape as in the turbulent days of the Spanish-American war. Yellow, blue and scarlet in every variation of each tint seem of paramount importance, brown and black have no seat of honor in their midst, and we are to conclude from this added indication that it is to be a season of riotous coloring. If I needed further verification of this fact, I would turn to the friends of the hat, who tell me of the gay clothes both the European and American women who are beginning to assemble are now wearing. If any one of you should need to replenish your wardrobe, there is a pretty suggestion in a description she sent me of a red stamped velvet. It would be an ideal

QUESTIONS FOR WOMEN.

If you were offered sure aid in time of trouble, would you put it aside and accept something of doubtful efficiency?

If you saw before you a strong and safe bridge leading to your goal, would you ignore it to try some insecure and tottering structure?

The answers to these questions are plain. You would, of course, choose without hesitation what all evidence showed to be the safe thing, and you would risk nothing in useless experiments.

Why then do some women risk one of their most precious possessions—their health—in trying medicines of unknown value, which may even prove hurtful to them?

Lydia E. Pinkham's Vegetable Compound has stood the test of years. It has the largest sale of any remedy for female ills in the world, and nothing could have given it this sale except its own merit.

Do not try experiments, buy what is known to be reliable. Mrs. Pinkham's Compound can do all that is claimed for it, and all statements in regard to it can be easily verified. For instance—Here are six letters which prove our claims.

Backache and Womb Troubles Succumb to Lydia E. Pinkham's Vegetable Compound.

"I have been for ten years an invalid with female weakness, and the torture and pain I suffered no tongue can tell. I never spent one week in the ten years that I was free from pain. My trouble was inflammation and congestion of the womb. When I commenced to take your remedy I had been bedfast for some time under the treatment of two of the best physicians in Illinois without receiving any benefit. You can imagine the benefit I derived from Lydia E. Pinkham's Vegetable Compound when I tell you that I have gained forty pounds and am well—a thing I never dared to expect."

Mrs. C. E. Foland, Monett, Mo.

"For a number of years I was troubled with backache and leucorrhoea. I became so weak and miserable that I could not attend to my work or studies. The least effort would completely exhaust me. Physicians failed to help me. I felt that my youth was blighted, and the life before me would be one of suffering and misery. Then a friend insisted on me taking your medicine. Before I had used one bottle I was greatly relieved. I had not known a well day for four years, but now I feel better than I have since a child, and it is all due to Lydia E. Pinkham's Vegetable Compound."

look for some of the hunt balls which will be on the tapis before many days elapse, providing you didn't care to appear in full dress. It has a yoke of pale shrimp pink, with creamy lace, and seems especially designed for wear with very pretty red toque with pink cummerbuds if you choose to convert it into an afternoon frock.

Bay, which which everybody wants, whether there are gayeties or no, is a tea gown, and she tells me of one of cherry colored silk, with a lace fichu, which is very Watteau-like and picturesque.

The latest in corsets for suppressing the hip and abdomen according to the present fashion. Model by Henri Vion.

esque, while the beautiful lace tulle coats, worn over different pale colors and sometimes with trimmings of fur, she speaks of are absolutely indispensable if you would be reckoned among the smartly dressed. One of them is of emerald green and white striped moire, and another, which is also pale green, is a delicately patterned panne. But there are new things as well as the old spoken of in this budget, and among these are the painted gowns. Imagine a picturesque black chiffon, with sprays of La France roses; and the very latest thing is painted cloth and painted crepe de chine.

Some quite exquisite dresses are being made here for coming entertainments. One is a pale transparent blue silk, lightly watered and laced with bouquets of pink roses, made as a court gown under an overdress of pale lilac mousseline de sole with painted roses, held in at the waist by a broad empire sash of pale pink, with a chon and long floating ends. A garland of roses is wreathed round the bodice and beauti-

ful bare shoulders and again encircles the arms as the prettiest analogy for sleeves. A rose-colored crepe de chine is painted with wreaths of white cloetta draped like a Greek petasos and caught up on one shoulder with a great white bird.

Turning from gay to grave, there is, I hear, some talk in London town of raising a corps according to the idea of the Roosevelt Rough Riders, which was a feature of the Spanish-American war. This corps was partly made up of young men from the Knickerbocker and other exclusive clubs in New York and other cities. It did valiant service and bore the hardships of the campaign unflinchingly, while the members now wear a little parti-colored button in their everyday dress as a memento to their "deed of derring do." This English society corps is similarly planned and would be drawn entirely from the higher ranks, so that all men, the majority of whom would go as troopers, would be well known to each other. Gerald Paget, who originated the idea, may probably take command, although George Paget is getting the regiment, together, Lord Wolverton, whom many Americans know well, was also very

Ovarian Troubles Always Yield to Lydia E. Pinkham's Vegetable Compound.

"I had been in poor health for twenty years, having inflammation of ovaries and womb trouble. Although treated by physicians, I could not gain strength nor do my work, and was so low-spirited and tired of life. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. The first bottle strengthened me, and I wrote to you. After taking six bottles I can say that I am well and can even do washing."

Mrs. M. W. Miller, No. 1033 Canal Street, New Orleans, La.

"For three years I suffered with ovarian trouble, having inflammation and an abscess on right ovary. Had such pain in my back and head, and at times was unable to walk. Had several doctors, but they did not do me much good. One doctor said that I would have to have an operation and have the ovary removed. I became discouraged and gave up all hopes of getting well. I began taking Lydia E. Pinkham's Vegetable Compound. I wrote to Mrs. Pinkham and followed her directions faithfully, and in a better than I have been for three years. I have taken ten bottles, and my friends are surprised at my rapid improvement."
